Appendix 4E – Preliminary Final Report

CSR Limited ABN 90 000 001 276 For the year ended 31 March 2016

Details of the reporting years Current: Previous corresponding:		ided 31 March 2016 ided 31 March 2015				
Result for announcement to the market ¹	·					
					A\$m	
Revenue from ordinary activities		up	14%	to	\$2,298.8	
Net profit after tax from ordinary activitie items, attributable to members ²	up	13%	to	\$166.0		
Net profit after tax from ordinary activitie attributable to members	, up	13%	to	\$142.3		
Net tangible assets						
As at			31 March 20	16	31 March 2015	
Net tangible assets per share attributable to CSR shareholders			\$2.10		\$2.05	
Dividends						
Financial year ended	31 March 2010	6	31 March 20	15	Franking	
Interim	11.5 cents		8.5 cents		0%	
Final	12.0 cents ª		11.5 cents	6	0%	

For Australian tax purposes, 100% of the dividend will be conduit foreign income.

Record date for determining entitlements to final dividend	2 June 2016
Final dividend payment date	5 July 2016

Dividend Reinvestment Plan

The Company's dividend reinvestment plan (DRP) will operate for the final dividend payable on 5 July 2016. The last date for receipt of the election notice for participation in the DRP is 3 June 2016, being the business day after the dividend record date of 2 June 2016. For the final dividend, shares will be acquired on-market and transferred to participants to satisfy any shares to be issued under the DRP.

DRP shares will be allocated at the arithmetic average of the daily volume weighted average market prices of shares in CSR sold on ASX's trading platform (including the closing single price auction but excluding all off-market trades) ("VWAP") on each day over a period of 10 trading days commencing on 10 June 2016. No discount will apply to shares issued under the DRP. For further details of the DRP please refer to the DRP Terms and Conditions available on CSR's website (www.csr.com.au).

Net profit after tax before significant items is a non-IFRS measure used internally by management to assess the performance of the business and has been extracted or derived from CSR's financial statements for the year ended 31 March 2016.

This document represents information provided pursuant to Listing Rule 4.3A of the Australian Securities Exchange. 1 2

1 During the year ended 31 March 2016, within the \$144.9 million of dividends paid, dividends to CSR Limited shareholders were \$116.4 million. Of the \$116.4 million in dividends, \$9.8 million was used to purchase CSR shares on market to satisfy obligations under the Dividend Reinvestment Plan (DRP), and the remaining \$106.6 million was paid in cash.

The above statement of cash flows should be read in conjunction with the accompanying notes.

Notes to the financial report

1 Basis of preparation

This section sets out the basis upon which the CSR group's financial statements are prepared as a whole. Significant and other accounting policies that summarise the measurement basis used and are relevant to an understanding of the financial statements are provided throughout the notes to the financial statements. All other accounting policies are outlined in note 31.

Statement of Compliance: CSR Limited is a limited company incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

This report is prepared in accordance with the ASX listing rule 4.3A, the requirements of the *Corporations Act 2001*, applicable Accounting Standards and Interpretations, and complies with other requirements of the law and the listing rules of the Australian Securities Exchange Limited.

This financial report should be read in conjunction with announcements to the market made by CSR Limited during the year in accordance with CSR Limited's continuous disclosure obligations under the Corporations Act 2001 and ASX Listing Rule 3.1. This report does not include all the notes of the type normally included in an annual financial report.

CSR Limited is a "for profit" entity. The financial report includes the consolidated financial statements of CSR Limited and its controlled entities (CSR group).

Basis of preparation: The financial report is based on historical cost, except for certain financial assets which are at fair value.

In preparing this financial report, the CSR group is required to make estimates and assumptions about carrying values of assets and liabilities. These estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

The accounting policies adopted are consistent with those of the previous year, unless otherwise stated.

Basis of consolidation: The consolidated financial statements have been prepared by aggregating the financial statements of all the entities that comprise the CSR group, being CSR Limited and its controlled entities. In these consolidated financial statements:

- results of each controlled entity are included from the date CSR Limited obtains control and until such time as it ceases to control an entity; and
- all inter-entity balances and transactions are eliminated.

Control is achieved where CSR Limited is exposed to, or has rights to, variable returns from its involvement with an entity and has the ability to affect those returns through its power to direct the activities of the entity. Entities controlled by CSR Limited are under no obligation to accept responsibility for liabilities of other common controlled entities except where such an obligation has been specifically undertaken.

Comparative information: Where applicable, comparative information has been reclassified in order to comply with current period disclosure requirements, the impact of which is not material to the financial report.

Rounding: Unless otherwise shown in the financial statements, amounts have been rounded to the nearest tenth of a million dollars and are shown by \$million. CSR Limited is a company of the kind referred to in the Australian Securities and Investments Commission (ASIC) Class Order 98/100 issued 10 July 1998.

Currency: Unless otherwise shown in the financial statements, amounts are in Australian dollars, which is the CSR group's functional currency.

New or revised accounting standards: The CSR group has adopted all amendments to Australian Accounting Standards which became applicable from 1 April 2015. There have been no new or revised accounting standards which materially impacted the financial report. New standards not yet applicable are discussed in note 31.

Changes in estimates: CSR Limited changed its estimate of the discount rates used to calculate the present value of employee benefits in accordance with AASB 119 *Employee Benefits*. Government bond rates were previously used as the discount rate. From 1 April 2015, corporate bond rates, as assessed and published by independent actuarial firm Milliman, are publicly available for use by corporate companies, and are deemed to better represent market yields. The favourable impact of discounting employee benefits using corporate bond rates of \$21.1 million was recognised in other comprehensive income in the year ended 31 March 2016, with no impact on the statement of financial performance.

Critical accounting judgments and key sources of estimation

uncertainty: Critical judgments and key assumptions that management has made in the process of applying the CSR group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements are detailed in the notes below:

Note	Judgment/Estimation
10	Asset impairment
11	Recoverability of deferred tax assets
12	Measurement of provisions for restoration and environmental rehabilitation and legal claims
12	Provision for uninsured losses and future claims
12, 13	Product liability
22	Classification of joint arrangements
23	Non consolidation of entities in which the CSR group holds more than 50%

NOTES TO THE FINANCIAL REPORT: The notes are organised into the following sections.

Financial performance overview: provides a breakdown of individual line items in the statement of financial performance, and other information that is considered most relevant to users of the annual report.

Balance sheet items: provides a breakdown of individual line items in the statement of financial position that are considered most relevant to users of the annual report.

Capital structure and risk management: provides information about the capital management practices of the CSR group and shareholder returns for the year. This section also discusses the CSR group's exposure to various financial risks, explains how these affect the CSR group's financial position and performance and what the CSR group does to manage these risks.

Group structure: explains aspects of the CSR group structure and the impact of this structure on the financial position and performance of the CSR group.

Other:

- provides information on items which require disclosure to comply with Australian Accounting Standards and other regulatory pronouncements; and
- provides information about items that are not recognised in the financial statements but could potentially have a significant impact on the CSR group's financial position and performance.

Financial performance overview

2 Segment information

Operating and reportable segments

The CSR group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in their role as the chief operating decision makers (CODM) in assessing performance and in determining the allocation of resources. Operating segments are identified by management and the board of directors based on the nature of the product sold and production processes involved. Reportable segments are based on operating segments determined by the similarity of the products produced and sold as these are the sources of the CSR group's major risks and have the most effect on the rates of return. Each of the business units disclosed below has been determined as both an operating segment and reportable segment.

Building Products	Lightweight Systems (Gyprock plasterboard, Hebel autoclaved aerated concrete products, Cemintel fibre cement, Ceilector ceiling solutions, Potter interior systems and Rondo rolled formed steel products joint venture), Insulation (Bradford and Martini insulation, Bradford energy solutions and Edmonds ventilation systems), AFS walling systems, Bricks (PGH Bricks joint venture and New Zealand Brick Distributors joint venture) and Roofing (Monier roofing).
Glass	The Glass business includes the operations of Viridian, Australia's leading architectural glass provider and the only manufacturer of float glass and hard coated performance products in Australia. It manufactures clear float, coated and bulk laminate glass in Victoria and value-added processing of glass from a number of facilities across Australia. It also participates in a glass processing joint venture in New Zealand.
Aluminium	The Aluminium business unit relates to the CSR groups 70% interest in Gove Aluminium Finance Limited, which in turn holds a 36.05% interest in the Tomago aluminium smelter (i.e. an effective interest of 25.24%). Gove Aluminium Finance Limited sources alumina, has it toll manufactured by Tomago and then sells aluminium into predominantly the Asian market. Products from the aluminium business include aluminium ingot, billet and slab.
Property	The Property business unit generates returns typically from the sale of former operating sites by advancing the sites through various stages of the development cycle. In addition, this business is currently involved in a small number of large-scale developments in New South Wales, Queensland and Victoria. These projects, in most cases, are in-fill developments (currently vacant land or discontinued operating sites within otherwise built up areas) located in metropolitan regions.

Accounting policies and inter-segment transactions

The accounting policies used by the CSR group in reporting segments internally are the same as those disclosed in the significant accounting policies, with the exception that significant items (i.e. those items which by their size and nature or incidence are relevant in explaining financial performance) are excluded from trading profits. This approach is consistent with the manner in which results are reported to the CODM.

Transfers of assets between segments are recognised at book value. It is the CSR group's policy that if items of revenue and expense are not allocated to operating segments, then any associated assets and liabilities are also not allocated to segments. This is to avoid asymmetrical allocations within segments which management believes would be inconsistent. Reporting provided to the board of directors in respect of earnings is primarily measured based on earnings before interest and tax (EBIT), excluding significant items, with significant items reviewed and reported separately to the CODM.

The following items are not allocated to operating segments as they are not considered part of the core trading operations of any segment:

- corporate overheads;
- restructuring and provisions;
- net finance cost; and
- significant items.

Geographical information

The CSR group operates principally in Australia. For the year ended 31 March 2016, the CSR group's trading revenue from external customers in Australia amounted to \$2,245.4 million (2015: \$1,969.9 million), with \$53.4 million (2015: \$53.5 million) of trading revenue related to other geographical areas. The CSR group's non-current assets excluding investments accounted for using the equity method, deferred tax assets and other financial assets from continuing operations in Australia amounted to \$1,085.6 million at 31 March 2016 (2015: \$1,028.0 million), with \$41.7 million (2015: \$49.3 million) related to other geographical areas.

Profit after tax attributable to shareholders of CSR Limited		142.3	125.5

	Funds employed (\$million)⁵		Return on funds	employed (%) ⁶
Business segment	As at 31 March 2016	As at 31 March 2015	As at 31 March 2016	As at 31 March 2015
Building Products	903.7	823.6	19.6%	15.0%
Glass	208.4	181.0	4.1%	1.7%
Aluminium	167.2	177.1	60.5%	55.4%
Property	133.0	125.5	18.1%	23.2%
Segment total	1,412.3	1,307.2	-	-
Corporate	(18.1)	(29.1)	-	-
Total CSR group	1,394.2	1,278.1	20.7%	18.4%

1 Trading revenue excludes net gain on disposal of assets, interest income, dividend income from other entities, share of net profit of joint venture entities and other income. Inter-segment sales are negligible.

2 EBITDA before significant items is earnings before interest, tax, depreciation, amortisation and significant items.

3

Represents unallocated overhead expenditure and other revenues, including interest income. Represents restructuring and provisions. Includes legal and managerial costs associated with long term product liabilities and minor product liability claims that arise 4 from time to time, certain defined benefit superannuation liabilities and expenses, other payables, non-operating revenue and other costs (excluding those categorised as significant items).

5 Funds employed is net assets of the CSR group less certain non-trading assets and liabilities. Funds employed at 31 March 2016 is calculated as net assets of \$1,317.2 million (2015: \$1,206.0 million), excluding the following assets: cash of \$73.1 million (2015: \$68.4 million), net tax assets of \$180.8 million (2015: \$234.7 million), net financial assets of \$14.3 million (2015: \$3.3 million) and interest receivable of \$0.5 million (2015: \$0.7 million). In addition, the following liabilities have been excluded from funds employed: asbestos product liability provision of \$334.5 million (2015: \$350.7 million), net superannuation liabilities of \$9.0 million (2015: \$28.5 million) and borrowings of \$2.2 million (2015: \$nil).

Return on funds employed (ROFE) is calculated based on EBIT before significant items for the 12 months to year end divided by average funds employed. ROFE is not a 6 measure used for Corporate costs which are considered in the context of the CSR group result. Property ROFE varies due to timing of projects.

Transaction costs included in finance cost	(0.4)	(0.4)
Significant items before income tax	(37.8)	(37.9)
Income tax benefit on significant items	9.0	16.9
Significant items after tax	(28.8)	(21.0)
Significant items attributable to non-controlling interests	5.1	-
Significant items attributable to shareholders of CSR Limited	(23.7)	(21.0)
Net profit attributable to shareholders of CSR Limited	142.3	125.5
Significant items attributable to shareholders of CSR Limited	23.7	21.0
Net profit before significant items attributable to shareholders of CSR Limited	166.0	146.5
Earnings per share attributable to shareholders of CSR Limited before significant items ⁴		
Basic (cents per share)	32.9	29.1
Diluted (cents per share)	32.7	28.7

1 During the financial year ended 31 March 2015, the CSR group recorded a charge of \$14.2 million as a result of the remeasurement of provisions in relation to legal disputes and land remediation obligations as well as sundry asset write offs for some legacy factory sites.

2 During the financial years ended 31 March 2016 and 31 March 2015, the CSR group incurred costs associated with potential and completed acquisitions, including integration costs relating to Boral CSR Bricks Pty Limited which was formed on 1 May 2015 (refer note 8). In addition, adjustments were recorded as a result of the fair value re-measurement of contingent consideration on previous acquisitions.

value re-measurement of contingent consideration on previous acquisitions.
During the years ended 31 March 2016 and 31 March 2015, restructuring and relocation programs took place across Building Products to align the business cost base with current market conditions and secure ongoing efficiencies.

4 The basis of calculation is consistent with the earnings per share disclosure in the statement of financial performance (refer note 4).

Recognition and measurement

Significant items are those which by their size and nature or incidence are relevant in explaining the financial performance of the CSR group, and as such are disclosed separately.

4 Earnings per share

	2016	2015
Profit after tax attributable to shareholders of CSR Limited (\$million)	142.3	125.5
Weighted average number of ordinary shares used in the calculation of basic EPS (million) ¹	504.6	504.2
Weighted average number of ordinary shares used in the calculation of diluted EPS (million) ²	508.0	509.7
Basic EPS (cents per share)	28.2	24.9
Diluted EPS (cents per share)	28.0	24.6

1 Calculated by reducing the total weighted average number of shares on issue of 506.0 million (2015: 506.0 million) by the weighted average number of shares purchased on market and held in trust to satisfy incentive plans as these plans vest of 1,371,255 (2015: 1,810,451).

2 Calculated by increasing the weighted average number of shares used in calculating basic EPS by outstanding performance rights of 3,372,155 (2015: 5,461,743). Performance rights granted under the LTI Plan are included in the determination of diluted earnings per share to the extent to which they are dilutive.

5 Revenue and expenses

\$million	Note	2016	2015
Trading revenue		2,298.8	2,023.4
Other income			
Net gain on disposal of assets		26.1	35.4
Other		5.1	3.8
Expenses			
Significant items	3	24.8	24.8
Employee benefits expense		523.6	454.6
Operating lease expense		58.5	54.0
Depreciation	10	78.2	73.7
Amortisation	10	5.0	4.1

Recognition and measurement

- Trading revenue: measured at the fair value of the consideration receivable, and is recognised when each of the following conditions is met:
 - persuasive evidence that an arrangement exists, which is usually in the form of a contractual arrangement;
 - the seller's price to the buyer is fixed or determinable;
 - the significant risks and rewards of ownership of the goods have transferred from the CSR group to the buyer; and
 - collectibility is reasonably assured.
- Net gain on disposal of assets: income is recognised when the risks and rewards have been transferred and CSR does not retain either continuing managerial involvement to the degree usually associated with ownership, or effective control over the assets sold. The revenue is measured as the amount receivable under the contract. It is discounted to present value if deferred payments have been agreed and the impact of discounting is material.
- Employee benefits expense: includes salaries and wages, share-based payments and other entitlements.
- **Operating lease expense:** payments made under operating leases (net of any incentives received by the lessor) are expensed on a straight-line basis over the period of the lease.

6 Net finance cost

\$million	Note	2016	2015
Interest expense and funding costs		4.1	6.4
Discount unwind and hedge loss relating to product liability provision		12.6	12.7
Discount unwind of other non-current liabilities		1.4	1.5
Foreign exchange loss		3.0	0.1
Finance cost		21.1	20.7
Interest income		(2.8)	(3.0)
Net finance cost		18.3	17.7
Finance cost included in significant items	3	(13.0)	(13.1)
Net finance cost before significant items		5.3	4.6

Recognition and measurement

Interest income and expense are accrued on a time basis, by reference to the principal outstanding and at the applicable effective interest rates. Funding costs are capitalised and subsequently amortised over the term of the facility. Unwinding of the interest component of discounted assets and liabilities is treated as a finance cost.

7 Income tax expense

Reconciliation of income tax expense charged to the statement of financial performance:

\$million Note	2016	2015
Profit before income tax	233.7	192.9
Income tax expense calculated at 30%	70.1	57.9
(Decrease) increase in income tax expense due to:		
Share of net profit of joint venture entities and rebates on dividend income	(3.7)	(3.1)
Non-taxable profit on property disposals	(5.9)	(5.0)
Non-deductible expenditure and other1	3.0	(4.2)
Income tax under provided in prior years	0.9	0.6
Total income tax expense on profit	64.4	46.2
Comprising of:		
Current tax expense	45.7	36.3
Deferred tax expense relating to movements in deferred tax balances 11	18.7	9.9
Total income tax expense on profit	64.4	46.2

1 Includes the impact of permanent differences related to significant items.

Recognition and measurement

Current and deferred tax is recognised as an expense in the statement of financial performance except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from an initial accounting for a business acquisition, in which case it is taken into account in the determination of goodwill.

Disclosure of company tax information

Under tax legislation the Australian Tax Office will publish in 2016 the following data for the CSR Limited tax consolidated group and Gove Aluminium Finance Pty Limited in relation to the 2015 tax year:

Entity	Total revenue (\$million)	Taxable income (\$million)	Tax payable (\$million)
CSR Limited (ABN: 90 000 001 276)	1,850.6	Nil	Nil
Gove Aluminium Finance Limited (ABN: 45 001 860 073)	546.2	122.1	33.2

Income tax is payable on profits (not total revenue) after allowing for expenses and specific adjustments under the tax law. For CSR Limited, taxable income and tax payable were nil because CSR was entitled to utilise prior year tax losses and claim certain tax deductions that made taxable income lower than accounting profit (for example, tax depreciation, certain restructure costs and payments of asbestos claims settlements).

8 Business combinations

i) Current year

Boral CSR Bricks Pty Limited

Background

On 4 April 2014, CSR and Boral Limited ('Boral') announced an intention to combine each Company's brick operations on the east coast of Australia. The Australian Competition and Consumer Commission announced on 18 December 2014 it would not oppose the proposed transaction. Subsequently, on 1 May 2015, CSR and Boral announced the completion of the transaction and formation of the combined venture.

The new venture, Boral CSR Bricks Pty Limited ('BCB' and trading as "PGH Bricks") is owned 60% by CSR and 40% by Boral, reflecting the valuation of the two businesses. There was effectively no cash consideration as part of the transaction except for typical working capital and closing adjustments.

The purpose of the transaction is to drive efficiencies across the combined network of operations.

Consolidation of Boral CSR Bricks into CSR group

The structure of the transaction has seen the CSR group consolidate the operating results and assets and liabilities of the newly formed company, BCB, from 1 May 2015.

Structure of transaction

The effect of the transaction was that CSR and Boral transferred their bricks business assets into the newly formed entity in return for shares in BCB and loans to BCB. The net impact of the transaction is summarised below.

	Boral	CSR	Total
Fair value of net assets contributed by each entity (\$million)	82.4	123.6	206.0
Number of shares in BCB issued to each entity at \$1 each (million)	70.4	105.6	176.0
Debt issued by each entity to BCB (\$million)	12.0	18.0	30.0

Revenue and profit contribution

If the non-controlling interest's share of BCB revenue and profit before income tax, significant items and non-controlling interests (PBT) were excluded from the CSR group results for the year ended 31 March 2016, CSR trading revenue and PBT would have been lower by \$105.2 million and \$14.9 million (\$7.5 million after significant items) respectively.

Acquisition accounting for the transaction

In accordance with AASB 3 Business Combinations, the CSR group:

- transferred the CSR bricks business to BCB at carrying value at 30 April 2015; and
- recorded the Boral bricks business in BCB at fair value at 1 May 2015.

The initial accounting and fair value of acquired net assets for this acquisition has been finalised at 31 March 2016. Details of the effective purchase consideration and the fair value of the Boral bricks assets and liabilities acquired are set out in this note.

	\$million
Consideration	
Ordinary shares issued to Boral ¹	70.4
Loan payable to Boral	12.0
Total consideration	82.4
Assets acquired and liabilities assumed	
Trade and other receivables	20.4
Inventories	30.6
Property, plant and equipment	50.2
Other intangible assets	1.3
Deferred tax assets	3.8
Trade and other payables	(15.5)
Provisions	(8.4)
Fair value of net assets acquired	82.4

1 Promissory notes were issued by Boral Bricks Pty Limited in exchange for the shares issued by BCB. These promissory notes were then settled when BCB acquired the Boral bricks assets.

As part of the transaction BCB paid \$4.0 million related to typical working capital and closing adjustments.

Acquisition related costs

The CSR group has incurred acquisition related costs of \$13.7 million related to legal fees, due diligence, stamp duty and other costs. These costs have been expensed and included within transaction and integration costs in significant items (refer note 3) in the year they were incurred.

Accounting for non-controlling interest

The CSR group recognised the non-controlling interest in the acquired entity based on the non-controlling interest's proportionate share of BCB's net identifiable assets. This decision is made on an acquisition-by-acquisition basis.

Other acquisitions during the year

During the year ended 31 March 2016, the CSR group acquired:

- Australian Glass Group Queensland (Glass segment) for cash consideration of \$4.0 million with goodwill of \$2.6 million arising as a result of the acquisition.
- Pacific Non-Wovens (Building Products segment) for cash consideration of \$2.1 million with no goodwill arising as a result of the acquisition.
- Picton Hopkins (Building Products segment) for cash consideration of \$1.3 million with goodwill of \$0.9 million arising as a result of the acquisition.
- Southern Glass (Glass segment) for cash consideration of \$4.8 million with goodwill of \$2.9 million arising as a result of the acquisition.
- Glazing and Construction Supplies (Glass segment) for cash consideration of \$2.0 million with goodwill of \$1.9 million arising as a result of the acquisition.
- A-Jacks (Building Products segment) for cash consideration of \$1.1 million with no goodwill arising as a result of the acquisition.

In addition, \$0.6 million was reclassified to goodwill in relation to prior period acquisitions.

8 Business combinations (continued)

ii) Prior year

Architectural Framework Systems (AFS)

The CSR group acquired 100% of Architectural Framework Systems (AFS) on 2 April 2014 (Building Products segment). AFS is a leader in permanent formwork walling solutions for the construction industry.

The primary reason for the acquisition was to continue CSR's growth in the Building Products segment.

The accounting for this acquisition was finalised during the year ended 31 March 2015. Details of the purchase consideration and the fair value of assets and liabilities acquired are given below.

	Note	\$million
Consideration		
Cash paid	(a)	36.7
Contingent consideration	(b)	12.4
Total consideration		49.1
Assets acquired and liabilities assumed		
Trade and other receivables		5.2
Inventories		2.3
Property, plant and equipment		8.3
Intangible assets		7.0
Trade and other payables		(6.8)
Provisions		(0.7)
Deferred tax liabilities		(1.5)
Fair value of net assets acquired		13.8
Goodwill arising on acquisition		35.3
Total consideration		49.1

The goodwill is attributable to the workforce, profitability and growth potential of the acquired business. It will not be deductible for tax purposes.

(a) Purchase consideration – cash outflow

Outflow of cash – investing activities	\$million
Outflow of cash to acquire subsidiaries, net of cash acquired	36.7

Acquisition related costs expensed were \$1.8 million.

(b) Contingent earn-out

In the event that certain pre-determined earnings measures were achieved by the subsidiary for each of the years ended 31 March 2015 and 31 March 2017 ('2017 earn-out period'), additional consideration would be payable in cash 60 days after each of the reporting periods. There was no limit to the maximum amount payable.

Earnings measures were met for the year ended 31 March 2015 resulting in the payment of 1.3 million in deferred consideration.

During the year ended 31 March 2016, the contingent consideration in relation to the 2017 earn-out period was remeasured to \$14.6 million by calculating the present value of the future expected cash flows.

Consequently for the year ended 31 March 2016, total consideration in relation to the acquisition is \$52.6 million consisting of:

- Cash consideration at acquisition date (\$36.7 million);
- 2015 deferred consideration (\$1.3 million); and
- 2017 deferred consideration (\$14.6 million).

Other acquisitions during the prior year

During the year ended 31 March 2015, two trade centres were acquired by the Building Products segment, with total cash consideration paid of \$1.4 million and goodwill of \$0.6 million arising in relation to the acquisitions.

Balance sheet items

9 Working capital

i) Current receivables

\$million	2016	2015
Trade receivables	289.0	240.7
Allowance for doubtful debts	(8.9)	(6.0)
Net trade receivables	280.1	234.7
Loans to joint ventures	-	0.2
Property debtors ¹	19.1	16.9
Other loans and receivables	20.4	16.9
Total current receivables	319.6	268.7
Ageing		
Past due 0-60 days – not impaired	7.7	7.9
Past due >60 days – not impaired	-	-
Past due >60 days – impaired	8.9	6.0
Movement in allowance for doubtful debts		
Opening balance	(6.0)	(5.5)
Trade debts written off	2.6	3.5
Trade debts provided	(5.5)	(4.0)
Closing balance	(8.9)	(6.0)

ii) Inventories

\$million	2016	2015
Current		
Raw materials and stores	92.1	83.0
Work in progress	18.8	13.6
Finished goods	199.2	183.9
Land development projects	38.7	39.5
Total current inventories ²	348.8	320.0
Non-current		
Land development projects	72.7	76.2
Total non-current inventories	72.7	76.2

Write-down of inventories recognised as an expense for the year ended 31 March 2016 totalled \$6.6 million (2015: \$2.3 million).

iii) Current payables

\$million	2016	2015
Trade payables	227.1	202.1
Other payables	33.5	34.7
Total current payables	260.6	236.8

1 Includes no amounts past due.

Recognition and measurement

Trade receivables: are recognised initially at fair value and subsequently measured at amortised cost. An allowance for doubtful debts is
raised based on a review of outstanding balances at balance date. Bad debts are written off against the allowance account and any
other change in the allowance account is recognised in the statement of financial performance.

2

- Inventories: are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and costs necessary to make the sale.
 - Raw materials, stores, work in progress and finished goods: costs included in inventories consist of materials, labour and manufacturing overheads which are related to the purchase and production of inventories. The value of inventories is derived by the method most appropriate to each particular class of inventories. The major portion is valued on either a first-in-first-out or average cost basis.
 - Land development projects: cost includes the cost of acquisition, development and holding costs during development. Costs incurred
 after completion of development are expensed as incurred. Land development projects not expected to be sold within 12 months are
 classified as non-current inventories.
- Trade and other payables: are recognised when the CSR group becomes obliged to make future payments resulting from the purchase of goods and services. Payables are stated at their amortised cost.

10 Property, plant and equipment and intangible assets

Balance at 31 March		74.2	66.1	15.7	13.7	32.4	28.4	48.1	42.1

Recognition and measurement

- Property, plant and equipment: assets acquired are recorded at historical cost of acquisition less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount.
- Software: developed internally or acquired externally, is initially measured at cost and includes development expenditure. Subsequently, these assets are carried at cost less accumulated amortisation and impairment losses.
- Other intangible assets: including trade names and customer lists obtained through acquiring businesses are measured at fair value at the date of acquisition. Trade names of \$19.3 million (2015: \$19.3 million) that have an indefinite life are assessed for recoverability when there is an indication of impairment. See below for further detail. Customer lists and all other trade names that have a defined useful life are amortised and subsequently carried net of accumulated amortisation. Intangible assets not obtained through acquiring businesses are measured at cost. These assets are subsequently carried at cost less accumulated amortisation and impairment losses.
- Goodwill: represents the excess of the cost of acquisition over the fair value of the identifiable assets and liabilities acquired. Goodwill is
 not amortised, but tested annually and whenever there is an indicator of impairment.

10 Property, plant and equipment and intangible assets (continued)

Recognition and measurement (continued)

Depreciation/amortisation: assets are depreciated or amortised at rates based upon their expected economic life using the straight-line method. Land, goodwill and trade names with indefinite lives are not depreciated or amortised. Trade names currently have an indefinite life as the CSR group is continually investing in marketing activities to develop the trade names and there are no contractual or other restrictions on the use of the trade names. Useful lives are as follows: buildings 10 to 40 years; plant and equipment 2 to 40 years; and systems software and other intangible assets 2 to 8 years. The average life of buildings is 26 years and plant and equipment is 11 years.

Critical accounting estimate - carrying value assessment

The CSR group tests property, plant and equipment and intangible assets for impairment to ensure they are not carried at above their recoverable amounts:

- at least annually for goodwill and trade names with indefinite lives; and
- where there is an indication that the assets may be impaired (which is assessed at least each reporting date).

These tests for impairment are performed by assessing the recoverable amount of each individual asset or, if this is not possible, then the recoverable amount of the cash generating unit (CGU) to which the asset belongs. CGUs are the lowest levels at which assets are grouped and generate separately identifiable cash flows. The recoverable amount is the higher of an asset or a CGU's fair value less costs of disposal and value in use. The value in use calculations are based on discounted cash flows expected to arise from the asset. Management judgment is required in these valuations to forecast future cash flows and a suitable discount rate in order to calculate the present value of these future cash flows. Future cash flows take into consideration forecast changes in the building cycle, aluminium prices and exchange rates where appropriate.

The carrying amount of goodwill forms part of the Building Products segment: \$66.8 million (2015: \$66.1 million) and Glass segment: \$7.4 million (2015: \$nil). The recoverable amounts of the cash generating units that include goodwill are determined using discounted cash flow projections. Where a valuation is required, the valuation is determined using discounted cash flows. Cash flows are reforecast annually, covering the next ten years, and a valuation calculated using a post-tax annual discount rate of 10.2% for all segments other than Aluminium which uses 12.2% (2015: 10.2% for all segments other than Aluminium which was 12.2%). A terminal value is used from year eleven onwards including an annual growth rate, which was 2.5% in the year ended 31 March 2016 (2015: 2.5%). Discounted cash flow projections over the period are deemed appropriate given the cyclical nature of the markets in which the CSR group operates. The first five years represent financial plans forecast by management, based on the CSR group's view of the respective cycle, with years six to ten applying averaging assumptions to ensure cash flows in year ten are sufficiently stable to apply the terminal value.

If the recoverable amount of a cash generating unit is estimated to be less than its carrying amount, the carrying amount of the cash generating unit is reduced to its recoverable amount with any impairment recognised immediately in the statement of financial performance.

11 Net deferred income tax assets

\$million	2016	2015
Total deferred income tax assets arising on temporary differences ¹	133.6	146.3
Tax losses – revenue recorded as asset	84.8	96.9

1 For the year ended 31 March 2016, the movement of \$4.5 million in 'other' relates to net deferred tax assets recognised on the formation of Boral CSR Bricks Pty Limited, and other acquisitions during the year. For the year ended 31 March 2015, the movement of \$1.5 million relates to net deferred tax liabilities recognised on the acquisition of Architectural Framework Systems. Refer to note 8 for further details.

Recognition and measurement

Current tax: represents the amount expected to be paid in relation to taxable income for the financial year measured using tax rates and tax laws that have been enacted or substantively enacted by the reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred income tax: is provided in full, using the balance sheet liability method, on temporary differences arising between the carrying amounts of assets and liabilities for financial reporting and tax purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date.

Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised.

Deferred tax assets and liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future. A deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Tax assets and liabilities are offset when there is a legally enforceable right to offset tax assets and liabilities, when the tax balances relate to the same taxation authority and when the CSR group intends to settle the tax assets and liabilities on a net basis. No provision for withholding tax has been made on undistributed earnings of overseas controlled entities where there is no intention to distribute those earnings.

Critical accounting estimate - recoverability of deferred income tax assets

The deferred income tax assets include an amount of \$84.8 million (2015: \$96.9 million) which relates to the carried forward tax losses of the CSR group. The CSR group has concluded that the deferred income tax assets will be recoverable using estimated future taxable income based on the approved business plans. The losses have no expiry date and can be carried forward indefinitely.

12 Provisions

\$million	2015	Acquired through business combination	Recognised/ remeasured	Settled/ transferred	Discount unwind	2016
Current

1 Includes provision for anticipated disposal costs of Tomago aluminium smelters spent pot lining.

Recognition, measurement and critical accounting estimates

Provisions are recognised when the CSR group has a present obligation (legal or constructive) as a result of a past event, it is probable that settlement will be required and the obligation can be reliably estimated. Provisions which are not expected to be settled within 12 months are measured at the present value of the estimated future cash outflows to be made by the CSR group.

Provisions representing critical accounting estimates and key sources of estimation uncertainty:

- Product liability: provision is made for all known asbestos claims and reasonably foreseeable future claims has been determined using
 reports provided by independent experts in each of Australia and the United States, and includes an appropriate prudential margin. Refer
 to note 13 for further details of the key assumptions and uncertainties in estimating this liability.
- Measurement of provisions for restoration and environmental rehabilitation and legal claims: the CSR group is in the process of remediating land in relation to legacy factory sites and is involved in a number of ongoing legal disputes. The liability is immediately recognised when the environmental exposure is identified and the rehabilitation costs can be reliably estimated. Judgment is required in arriving at an estimate of future costs required to extinguish these obligations. Given the nature of these issues, circumstances may change and estimates and provisions will be updated accordingly. Expert advice is relied upon (where available) and known facts at the date of this report are considered to arrive at the best estimate for future liabilities.
- Provision for uninsured losses and future claims: relates to the CSR group's self insurance for workers' compensation program. CSR Limited is a licensed self insurer in New South Wales, Queensland, Victoria, Western Australia and the Australian Capital Territory for workers compensation insurance. The provision recognises the best estimate of the consideration required to settle the present obligation for anticipated compensation payments and is determined at each year end reporting date using reports provided by independent experts annually.

Other provisions

Employee benefits provisions: provision is made for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and other employee obligations when it is probable that settlement will be required and they are capable of being reliably measured. Provisions made in respect of employee benefits expected to be settled within 12 months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

13 Product liability

Product liability

CSR Limited and/or certain subsidiaries (CSR) were involved in mining asbestos and manufacturing and marketing products containing asbestos in Australia, and exporting asbestos to the United States. CSR's involvement in asbestos mining, and the manufacture of products containing asbestos, began in the early 1940s and ceased with the disposition of the Wunderlich asbestos cement business in 1977. As a result of these activities, CSR has been named as a defendant in litigation in Australia and the United States.

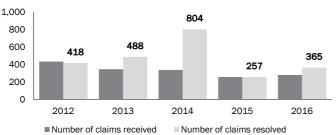

In Australia, asbestos related personal injury claims have been made by employees and ex-employees of CSR, by others such as contractors and transporters and by users of products containing asbestos, by people who lived near factories operated by former subsidiaries of CSR, as well as residents of and visitors to Wittenoom. As at 31 March 2016, there were 362 such claims pending.

In the United States, claims are made by people who allege exposure to asbestos fibre used in the manufacture of products containing asbestos or in the installation or use of those products. As at 31 March 2016, there were 577 such claims pending.

CSR has been settling claims since 1989. As at 31 March 2016, CSR had resolved approximately 4,100 claims in Australia and approximately 137,200 claims in the United States.

The annual amounts paid by CSR in respect of asbestos related claims vary year on year depending on the number and types of claims received and resolved during each year, the litigation or other determination of particular claims or issues and any determination by management to resolve claims that may have been received in earlier years.

CSR's recent claims experience is summarised in the graph and table below.

Graph 1: Five year history - claim numbers

Basis of provision

CSR includes in its financial statements a product liability provision covering all known claims and reasonably foreseeable future asbestos related claims. This provision is reviewed every six months. The provision recognises the best estimate of the consideration required to settle the present obligation for anticipated compensation payments and legal costs as at the reporting date. The provision is net of anticipated workers compensation payments from available workers compensation insurers.

Table 1: Five year history - claim numbers and expenditure

CSR does not believe there is any other significant source of insurance available to meet its asbestos liabilities. CSR no longer has general insurance coverage in relation to its ongoing asbestos liabilities.

In determining the product liability provision, CSR has obtained independent expert advice in relation to the future incidence and value of asbestos related claims in each of the United States and Australia. CSR has appointed Finity Consulting Pty Limited as the independent expert to estimate the Australian liabilities. CSR has appointed Gnarus Advisors LLC as the independent expert to estimate the United States liabilities. The independent experts make their own determination of the methodology most appropriate for estimating CSR's future liabilities. The assessments of those independent experts project CSR's claims experience into the future using modelling techniques that take into account a range of possible outcomes. The present value of the liabilities is estimated by discounting the estimated cash flows using the pre-tax rate that reflects the current market assessment of the time value of money and risks specific to those liabilities.

Many factors are relevant to the independent experts' estimates of future asbestos liabilities, including:

- numbers of claims received by disease and claimant type and expected future claims numbers, including expectations as to when claims experience will peak;
- expected value of claims;
- the presence of other defendants in litigation or claims involving CSR;
- the impact of and developments in the litigation and settlement environment in each of Australia and the United States;
- estimations of legal costs;
- expected claims inflation; and
- the discount rate applied to future payments.

There are a number of assumptions and limitations that impact on the assessments made by CSR's experts, including the following:

- assumptions used in the modelling are based on the various considerations referred to above;
- the future cost of asbestos related liabilities are inherently uncertain for the reasons discussed in this note;
- uncertainties as to future interest rates and inflation;
- the analysis is supplemented by various academic material on the epidemiology of asbestos related diseases that is considered by the experts to be authoritative;
- the analysis is limited to liability in the respective jurisdictions of Australia and the United States that are the subject of the analysis of that expert and to the asbestos related diseases that are currently compensated in those jurisdictions; and
- the effect of possible events that have not yet occurred which are currently impossible to quantify, such as medical and epidemiological developments in the future in treating asbestos diseases, future court and jury decisions on asbestos liabilities, and legislative changes affecting liability for asbestos diseases.

	Year ended 31 March					
	2012	2013	2014	2015	2016	
Number of claims received	435	347	339	258	281	
Number of claims resolved	418	488	804	257	365	
Amount spent on settlements (A\$ million) ¹	34.7	31.0	29.2	25.0	21.9	
Average cost per resolved claim (A\$)	83,067	63,553	36,411	97,276	59,980	

1 Excludes external legal costs, net of insurance recoveries.

13 Product liability (continued)

Basis of provision (continued)

In Australia the methodology used by Finity Consulting Pty Limited produces the central estimate of future asbestos liabilities which represents the average expectation of the range of possible outcomes. At 31 March 2016 the central estimate was A\$157.1 million calculated using a discount rate of 4.5%. On an undiscounted and inflated basis that central estimate would be

A\$232.0 million over the year to 2066, being the year that the Australian independent expert advises CSR is relevant for the estimation of CSR's future Australian asbestos liabilities.

In the United States the methodology used by Gnarus Advisors LLC produces a base case estimate or most likely outcome. At 31 March 2016, the base case estimate was US\$86.0 million calculated using a discount rate of 3.5%. On an undiscounted and inflated basis that base case estimate would be US\$107.3 million over the anticipated further life of the United States liability (40 years).

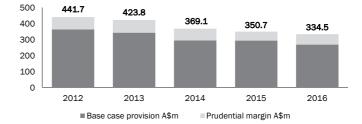

The product liability provision is determined every six months by aggregating the Australian and United States estimates noted above, translating the United States base case estimate to Australian dollars using the exchange rate prevailing at the balance date and adding a prudential margin. The prudential margin is determined by the CSR directors at the balance date, having regard to the prevailing litigation environment, any material uncertainties that may affect future liabilities and the applicable long term Australian dollar to United States dollar exchange rate. As evidenced by the analysis below, due, in particular, to the fluctuations in exchange rate, the prudential margin has varied over the past five years. The directors anticipate that the prudential margin will continue to fluctuate within a range approximating 10% to 30% depending on the prevailing circumstances at each balance date.

At 31 March 2016, a provision of \$334.5 million (31 March 2015: \$350.7 million) has been made for all known claims and reasonably foreseeable future claims, and includes a prudential margin of \$65.2 million (31 March 2015: \$56.5 million) above the aggregate most likely estimate of the future asbestos liabilities in Australia and the United States as determined by Finity Consulting Pty Limited and Gnarus Advisors LLC respectively.

Having regard to the extremely long tailed nature of the liabilities and the long latency period of disease manifestation from exposure, the estimation of future asbestos liabilities is subject to significant complexity. As such, there can be no certainty that the product liability provision as at 31 March 2016 will definitively estimate CSR's future asbestos liabilities. If the assumptions adopted by CSR's experts prove to be incorrect, the current provision may be shown to materially under or over state CSR's asbestos liability.

However, taking into account the provision already included in CSR's financial statements and current claims management experience, CSR is of the opinion that asbestos litigation in the United States and Australia will not have a material adverse impact on the CSR group's financial condition.

CSR's asbestos provision from 2012 to the year ended 31 March 2016 is summarised in the graph and table below.

Process agreed with the Foreign Investment Review Board (FIRB)

On 22 December 2010, CSR sold its Sucrogen business to Wilmar International Limited (Wilmar). The sale of Sucrogen to Wilmar required approval from the Commonwealth Treasurer (via the FIRB).

As part of the approval process, and as further evidence of CSR's commitment to responsibly managing its asbestos related liabilities, CSR has put in place a process for the external oversight of any repatriation of capital by CSR to its shareholders during the period of seven years following the sale of Sucrogen (subject to limited earlier termination provisions).

As part of this process, CSR has entered into an agreement with an independent body, The Trust Company (TTC) which was acquired by Perpetual Limited in 2013, pursuant to which CSR must demonstrate that CSR has fulfilled certain requirements prior to any repatriation of funds to its shareholders other than half yearly or annual dividends paid by CSR in accordance with its usual practice and its dividend policy in force from time to time.

These requirements include that:

- CSR's asbestos liabilities have been reviewed by an additional independent expert;
- CSR intends to retain its 'investment grade' credit rating following any repatriation; and
- an approved accounting firm has expressed an opinion that the decision of CSR's directors that a particular repatriation of capital would not materially prejudice creditors, including current and reasonably foreseeable future asbestos claimants, was formed on a reasonable basis.

In accordance with the agreement with TTC, documentation was provided by CSR to TTC to demonstrate that the above requirements were fulfilled in relation to:

- the special dividend and the capital return which were paid to CSR shareholders on 2 February 2011 and 3 March 2011 respectively; and
- the on-market share buy-back announced by CSR on 4 March 2016 (refer note 15 for further details).

\$million	Year ended 31 March				
	2012	2013	2014	2015	2016
United States base case estimate US\$	199.2	194.0	123.5	104.9	86.0
United States base case estimate A\$	191.8	185.8	133.5	137.0	112.2
Australian central estimate A\$	172.7	158.3	161.8	157.2	157.1

Total product liability provision A\$	441.7	423.8	369.1	350.7	334.5

Graph and table 2: Five year history - asbestos provision

Capital structure and risk management

14 Borrowings and credit facilities

i) Borrowings

\$million	2016	2015
Non-current borrowings – unsecured ¹	2.2	-

1 Of the \$2.2 million in borrowings at 31 March 2016 (2015: \$nil), \$1.6 million relates to loans held by Boral CSR Bricks Pty Limited (BCB) and matures on 1 May 2018. This facility is payable to Boral Limited and arose as part of the formation of BCB (refer note 8).

Recognition and measurement

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit or loss over the period of the borrowing using the effective interest rate method.

ii) Credit facilities

The CSR group has a total of \$325.0 million (31 March 2015: \$382.0 million) committed standby facilities with external financial institutions. These facilities have fixed maturity dates as follows: \$30.0 million in 2018, \$131.0 million in 2019, with the balance of \$164.0 million in 2020. As at 31 March 2016, \$325.0 million of the standby facilities were undrawn.

15 Issued capital

	Ordinary shares fully paid ¹	lssued capital \$million
On issue 31 March 2015	506,000,315	1,042.2
On-market share buy-back - net of transaction costs	(300,000)	(1.1)
On issue 31 March 2016	505,700,315	1,041.1

1 Fully paid ordinary shares are listed on the Australian Securities Exchange and carry one vote per share and the right to dividends.

No shares were issued during the years ended 31 March 2016 and 31 March 2015 under employee share plans as shares in respect of the plans were acquired on market. During the years ended 31 March 2016 and 31 March 2015, eligible shareholders were able to reinvest all or part of their dividends in fully paid ordinary shares. Shares were acquired on market and did not have any impact on issued capital.

Net tangible assets per ordinary share for the year ended 31 March 2016 are \$2.10 (2015: \$2.05). Net tangible assets per share is calculated as net assets attributable to CSR Limited shareholders of \$1,183.9 million (2015: \$1,145.7 million) less intangible assets of \$122.3 million (2015: \$108.2 million) divided by the number of issued ordinary shares of 505.7 million (2015: 506.0 million).

Share buy-back

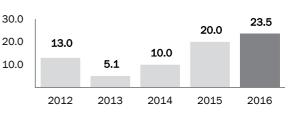

During the year ended 31 March 2016, the company announced that as part of its ongoing capital management strategy, it would undertake an on-market share buy-back of up to \$150 million. The share buy-back commenced on 21 March 2016 and will continue over the financial years ending 31 March 2017 and 31 March 2018.

16 Dividends and franking credits

i) Dividends

Type of dividend (unfranked)	Cents per share	Total amount \$million	Date paid/payable
2014 Final	5.0	25.3	8 July 2014
2015 Interim	8.5	43.0	16 December 2014
2015 Final	11.5	58.2	7 July 2015
2016 Interim	11.5	58.2	15 December 2015
2016 Final ¹	12.0	60.7	5 July 2016

Graph 1: Dividends declared in each financial year - cents per share

1 The final dividend for the financial year ended 31 March 2016 has not been recognised in this financial report because it was resolved to be paid after 31 March 2016. The amounts disclosed as recognised in 2016 are the final dividend in respect of the financial year ended 31 March 2015 and the interim dividend in respect of the financial year ended 31 March 2016.

ii) Franking credits

\$million	2016	2015
Franking account balance on a tax paid basis ¹	8.3	0.4

1 The final dividend recommended after 31 March 2016 will not impact the franking account balance as the dividend is unfranked.

17 Reserves

Balance at 31 March 2015	2.5	(3.2)	24.5	(3.4)	(3.3)	17.1

Nature and purpose of reserves

Hedge reserve: the hedging reserve is used to record gains or losses on a hedging instrument in a cash flow hedge that are recognised in other comprehensive income. Amounts are reclassified to profit or loss when the associated hedged transaction affects profit or loss.

Foreign currency translation reserve: exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income and accumulated in a separate reserve within equity.

Employee share reserve: the employee share reserve is used to recognise the share-based payments expense and associated income tax recognised through other comprehensive income.

Share based payment trust reserve: treasury shares are shares in CSR Limited that are held by the CSR Limited Share Plan Trust ('Trust') for the purpose of issuing shares under the CSR employee share plans and the CSR executive incentive plans. When the Trust purchases the company's equity instruments, the consideration paid is recorded in the share based payments trust reserve.

Number of shares	2016	2015
Opening balance	1,457,775	2,015,257
Acquisition of shares by the Trust (average price of \$3.31 (2015: \$3.70) per share)	2,145,000	920,000
Issue of shares under executive incentive plans	(2,613,022)	(1,477,482)
Closing balance	989,753	1,457,775

Other reserves: other reserves are used to recognise the written put option the minority shareholders of the Martini business have to sell all of their remaining interest to the group at an agreed price (based on the financial results of the business).

18 Financial risk management

The CSR group's activities expose it to a variety of financial risks:

- (i) credit risk;
- (ii) liquidity risk; and
- (iii) market risk.

This note presents information about the Risk Management Policy framework ('framework') and each of these risks.

The framework sets out the specific principles in relation to the use of financial instruments in hedging exposures to commodity risk, foreign exchange risk, interest rate risk and credit risk, in addition to the use of derivatives and the investment of excess liquidity. The Risk Management Policy has been approved by the board of directors.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the CSR group's activities. Compliance with the framework and procedures is reviewed by the Finance Committee on a routine basis. The Finance Committee membership consists of the managing director and other relevant senior executives.

The CSR group uses a variety of derivative instruments to manage financial and commodity price risks. There have been no changes in the CSR group's exposure to risks or the Risk Management Policies used to manage these risks during the years ended 31 March 2016 and 31 March 2015.

The CSR group does not use derivative or financial instruments for speculative or trading purposes.

Recognition and measurement

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

i) Credit risk

Nature of the risk

Credit risk is the risk of financial loss to the CSR group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the CSR group's receivables from customers. The carrying amount of financial assets represents the maximum credit exposure.

Credit risk management: receivables

The CSR group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate. To manage this risk, the CSR group has a policy for establishing credit approvals and limits under which each new customer is analysed individually for creditworthiness before the CSR group's standard payment and delivery terms and conditions are offered. Sale limits are established for each customer and reviewed regularly.

Any sales exceeding those limits require approval from the general manager. The CSR group continuously monitors the financial viability of its counterparties, ageing analysis and, where necessary, carries out a reassessment of sale limits provided. Concentrations of credit risk with respect to receivables are limited due to the large number of customers and markets in which the CSR group does business, as well as the dispersion across many geographic areas.

The CSR group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables (see note 9).

Credit risk management: derivatives

The CSR group has an established counterparty credit risk policy. Derivatives may be entered into with banks that are rated at least Afrom rating agency Standard & Poor's or A3 from rating agency Moodys, unless otherwise approved by the Board.

ii) Liquidity risk

Nature of the risk

Liquidity risk is the risk that the CSR group has insufficient funds to meet its financial obligations when they fall due.

Liquidity risk management

Liquidity risk management requires maintaining sufficient cash, bank facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The CSR group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the CSR group's reputation. Details of credit facilities and the maturity profile are given in note 14.

The table below analyses the undiscounted cash flows for CSR group's financial liabilities and derivative financial instruments, currently in a liability position, into relevant maturity groupings based on the remaining period at the reporting date to maturity:

Liquidity risk (\$million)	1 year or less	1 to 3 years	3 to 5 years	Total
2016				
Current payables	260.6	-	-	260.6
Non-current other payables	-	18.9	-	18.9
Borrowings (including interest)	0.1	1.7	-	1.8
Commodity financial instruments	0.2	2.1	1.5	3.8
Foreign currency financial instruments ¹	17.6	-	-	17.6
Total	278.5	22.7	1.5	302.7
2015				
Current payables	236.8	-	-	236.8
Non-current other payables	-	16.3	-	16.3
Foreign currency financial instruments ¹	28.6	10.9	-	39.5
Total	265.4	27.2	-	292.6

1 Settlement of foreign currency financial instruments will be offset by revenue from the sale of commodities.

iii) Market risk

Nature of commodity price risk - aluminium

The CSR group has exposure to aluminium commodity prices which arises from sales contracts that commit the CSR group to supply aluminium in future years. Prices for product supplied under these contracts are a function of the US dollar market price at the time of delivery.

Commodity price risk management - aluminium

The CSR group has a policy of hedging its aluminium sales (net of any linked exposure on inputs such as Alumina), where acceptable pricing is available, to reduce the volatility of its aluminium earnings when exchanged into Australian dollars. Eligible hedging instruments used for hedging commodity price risk include commodity forward contracts and commodity options. Hedging is undertaken at declining levels for up to four years.

The price of product supplied under sales contracts comprises two components, the London Metal Exchange (LME) Primary Aluminium cash price, and a physical premium. Over the year ended 31 March 2016, the average of the daily LME cash price was US\$1,511 per tonne and the average Platts mid-point physical premium was US\$168.75 per tonne. The LME price component represented 90% of the sum of the two. The CSR group designates the LME price component of sales as the hedged item. Commodity forward and option contracts are also priced against the LME Primary Aluminium cash price. There is an established economic relationship between the physical sales of aluminium and the commodity forward and option contracts as they are both priced using the same reference price. As the underlying risk of the aluminium price risk is identical to the hedged component, the CSR group has established a hedge ratio of 1:1 for all its hedging relationships over aluminium price risk.

The CSR group does not hedge its exposure to the variability in physical metal premiums. In the CSR group's view, there is currently no viable hedge instrument for physical metal premiums and this component of the metal sales price remains unhedged.

The table below provides information about the aluminium commodity swaps entered into by the CSR group to manage its aluminium commodity price exposure:

	No	tional valu	Fair value		
Commodity price risk (\$million)	1 year or less	1 to 3 years	Total	Asset	Liability
2016					
Aluminium commodity swaps ^{1,2}	143.6	24.4	168.0	25.5	(0.2)
2015					
Aluminium commodity swaps ^{1,2}	213.8	97.7	311.5	37.2	-

 The average price in US dollars per metric tonne at 31 March 2016 was \$1,814.2 (2015: \$2,064.9). The average price for the individual periods does not materially differ from the overall average price disclosed.

2 \$25.3 million net of commodity contract gains (2015: \$37.2 million net gains) were deferred in 2016 as the gains relate to cash flow hedges of highly probable forecast transactions. The expected timing of recognition based on the fair values at 31 March 2016 is one year or less: \$23.5 million gain (2015: \$25.6 million gain); one to three years: \$1.8 million gain (2015: \$11.6 million gain).

Commodity price risk sensitivity - aluminium

A 10% increase in the aluminium price, assuming a constant exchange rate on hedging contracts in place at 31 March 2016, would result in a decrease in other equity before tax of \$14.1 million (2015: \$27.3 million). A decrease of 10% in the aluminium price would have the opposite impact.

Nature of commodity price risk - oil

The CSR group has exposure to oil commodity prices through an oil price linked gas purchasing contract. The A\$ gas purchase price is partially a function of the prevailing US\$ oil price and A\$/US\$ exchange rate.

Commodity price risk management - oil

The CSR group has a policy of hedging the oil price component of the price of gas purchased to reduce the volatility of its energy costs. Eligible hedging instruments include commodity and foreign exchange option contracts. The CSR group designates the oil price converted to A\$ component of the gas price as the hedged item. Both the gas purchasing contract and the commodity forwards and options are priced against the ICE Brent futures contract price and the A\$/US\$ hedge settlement rate reference prices and, as such, the CSR group has established a hedge ratio of 1:1 for the hedging relationship between the oil price component of the gas purchase contract and the derivative hedges for all its oil price risk.

The table below provides information about the oil commodity swaps entered into by the CSR group to manage its oil commodity price exposure:

	No	Fair value		
Commodity price risk (\$million)	1 to 3 years	3 to 5 years	Total	Liability
2016				
Oil commodity swaps ^{1,2}	10.5	10.3	20.8	(3.3)
2015				
Oil commodity swaps ^{1,2}	-	-	-	-

1 The average price in AUD dollars per barrel at 31 March 2016 was \$82.8 (2015: \$nil). The average price for the individual periods does not materially differ from the overall average price disclosed.

2 \$3.3 million net of commodity contract losses (2015: \$nil) were deferred in 2016 as the losses relate to cash flow hedges of highly probable forecast transactions. The expected timing of recognition based on the fair values at 31 March 2016 is one to three years: \$2.0 million loss (2015: \$nil); three to five years: \$1.3 million loss (2015: \$nil).

Commodity price risk sensitivity - oil

A 10% increase in the oil price, assuming a constant exchange rate on hedging contracts in place at 31 March 2016, would result in an increase in other equity before tax of 1.6 million (2015: 1.6 million). A decrease of 10% in the oil price would have the opposite impact.

Interest rate risk management

At the reporting date, CSR group's interest rate exposure is limited to the cash balance (net of bank overdraft) of \$73.1 million (2015: \$68.4 million). The carrying amount of the asset is the same as the fair value and the maturity profile is less than 1 year. The average interest rate on cash balances for the year was 0.95% (average 2015 rate: 1.23% per annum).

At 31 March 2016, if interest rates had increased/decreased by one percentage point per annum from the year end rates with all other variables held constant, the post-tax profit for the year would have been \$0.9 million higher/lower (2015: \$0.4 million higher/lower), mainly as a result of higher interest income on cash balances.

iii) Market risk (continued)

Nature of foreign exchange risk

The CSR group's major foreign currency exposure relates to its US dollar aluminium sales revenue and payments for raw materials and capital equipment.

Foreign exchange risk management

The CSR group uses a variety of foreign exchange risk management instruments, including spot, forward and swap currency contracts and currency options, to hedge foreign currency denominated receipts resulting from revenue and payments for raw materials and capital equipment denominated in foreign currencies.

The CSR group's policy is to hedge its net US dollar aluminium exposure to reduce the volatility of aluminium earnings, when acceptable Australian dollar outcomes can be achieved.

Forecast US dollar receipts are based on highly probable forecast monthly sales transactions of aluminium which ensures that the underlying foreign currency exchange risk is identical to the hedged risk component (i.e. the US dollar price). Therefore the CSR group has established a hedge ratio of 1:1 for all its foreign exchange hedging relationships. Hedging is undertaken at declining levels for up to four years.

The CSR group's policy to hedge foreign exchange exposures arising from payments for raw materials are hedged for up to 18 months with a declining hedge level over time, although higher levels can be hedged when using currency options. The policy requires that material foreign currency denominated purchases of capital equipment be fully hedged to the domestic currency to eliminate currency exposure. Similarly, the policy also requires that all material foreign currency assets and liabilities are hedged to the relevant entity's domestic currency.

Foreign exchange risk sensitivity

At 31 March 2016, had the Australian dollar strengthened/weakened by 10% against the respective foreign currencies with all other variables held constant, the post-tax profit arising from forward exchange rate agreements would have been materially unchanged mainly as a result of the effectiveness of the hedging in place. Equity before tax would have been \$9.7 million higher/\$10.3 million lower (2015: \$28.5 million higher/\$34.8 million lower) had the Australian dollar strengthened/weakened by 10% against the respective foreign currencies arising mainly from foreign forward exchange contracts designated as cash flow hedges.

The table below provides information about the CSR group's significant exchange rate exposures in forward exchange rate agreements:

Foreign exchange risk ^{1,3}	Average _		Notional value		Fair	value
(\$million)	exchange rate ²	1 year or less	1 to 3 years	Total	Asset	Liability
2016						
US dollar - buy	0.73	179.2	-	179.2	0.4	(6.9)
US dollar - sell	0.76	202.9	11.7	214.6	8.4	(9.1)
NZ dollar - buy	1.10	32.5	-	32.5	0.3	(0.6)
NZ dollar - sell	1.11	71.0	-	71.0	0.5	(0.5)
Euro - buy	0.66	12.9	_	12.9	_	(0.3)
Euro - sell	0.66	5.8	-	5.8	0.1	-
Total					9.7	(17.4)
2015						
US dollar - buy	0.84	41.8	2.0	43.8	4.5	-
US dollar - sell	0.87	206.8	88.3	295.1	0.1	(37.6)
NZ dollar - buy	1.08	18.5	0.7	19.2	0.5	-
NZ dollar - sell	1.04	73.6	10.5	84.1	-	(1.1)
Euro - buy	0.68	6.4	_	6.4	-	(0.3)
Euro - sell	0.71	1.5	-	1.5	-	-
Total					5.1	(39.0)

1 \$6.4 million of net foreign exchange contract losses (2015: \$34.6 million loss) have been deferred as the gains relate to cash flow hedges of highly probable forecast transactions. The expected timing of recognition based on the fair values at 31 March 2016 is one year or less: \$7.3 million loss (2015: \$24.7 million loss); and one to three years: \$0.9 million gain (2015: \$9.9 million loss).

2 Average rates for the individual periods do not materially differ from the overall average rates disclosed.

3 The CSR group has insignificant exchange rate exposures in GBP and JPY.

iv) Capital management

The CSR group manages its capital to ensure that entities in the CSR group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balances.

The capital structure of the CSR group consists of debt which includes the borrowings disclosed in note 14 (2016: \$2.2 million, 2015: \$nil), cash and cash equivalents, issued capital and reserves disclosed in notes 15 and 17 and retained profits. The CSR group reviews the capital structure regularly and balances its overall capital structure through the payment of dividends, new share issues, share consolidations and share buy-backs, as well as the issue of new debt or the redemption of existing debt.

v) Fair value measurement of financial instruments

The table below provides an analysis of hedge accounted financial instruments that are measured subsequent to initial recognition of fair value, including their levels in the fair value hierarchy:

	2016	2015
\$million	Level 2	Level 2
Financial assets at fair value		
Commodity swaps - aluminium	25.5	37.2
Forward exchange rate contracts	9.7	5.1
Total	35.2	42.3
Financial liabilities at fair value		
Commodity swaps - aluminium	0.2	-
Commodity swaps - oil	3.3	-
Forward exchange rate contracts	17.4	39.0
Total	20.9	39.0

Level 1: fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities. The CSR group has no Level 1 financial instruments in the fair value hierarchy.

Level 2: fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs). The CSR group has no Level 3 financial instruments in the fair value hierarchy.

There were no transfers from Level 2 to Level 1 and Level 3 in 2016 and no transfers in either direction in 2015.

The fair value amounts shown above are not necessarily indicative of the amounts that the CSR group would realise upon disposition, nor do they indicate the CSR group's intent or ability to dispose of the financial instrument.

Recognition and measurement

The fair value of financial instruments, including financial assets and liabilities approximates their carrying amount.

The fair values of derivative instruments are calculated using quoted market prices. Where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Foreign currency forward contracts are measured using quoted exchange rates and yield curves derived from quoted interest rates matching maturities of the contract.

The CSR group designates its derivatives as cash flow hedges. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are deferred in equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts deferred in equity are recycled in profit or loss in the year when the hedged item is recognised in profit or loss.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts.

vi) Cash flow hedging

The impact of hedging instruments designated in material hedging relationships as of 31 March 2016 on the statement of financial position of the CSR group is as follows:

	Commodity price risk ¹		Foreign exchange risk				
	Aluminium com (forecast)			Forward currency contracts (forecast sales) ³		ency contracts urchases) ⁴	
\$million	2016	2015	2016	2015	2016	2015	
Notional amount	71,000 tonnes	115,500 tonnes	172.2	233.4	97.4	33.7	
Carrying amount:							
Asset	25.5	37.2	7.2	-	0.9	1.9	
Liability	0.2	-	9.2	35.8	5.3	0.6	
Changes in value of instrument used for calculating hedge ineffectiveness – gain (loss)	25.3	37.2	(2.0)	(35.8)	(4.4)	1.3	

1 The CSR group has insignificant hedging relationships in oil commodity swaps.

2 \$23.7 million (2015: \$25.6 million) of the carrying amount of Aluminium commodity swaps are disclosed within current other financial assets and \$1.8 million (2015:

\$11.6 million) within non-current other financial assets. \$0.2 million (2015: \$nil) of Aluminium commodity swaps are disclosed within current other financial liabilities \$6.3 million (2015: \$nil) of the carrying amount of forward currency contracts are disclosed within current other financial assets and \$0.9 million (2015: \$nil) within non-current other financial assets. \$9.2 million (2015: \$25.7 million) of the carrying amount of forward currency contracts are disclosed within current other financial 3 liabilities and \$nil (2015: \$10.1 million) within non-current other financial liabilities.

\$0.9 million (2015: \$1.7 million) of the carrying amount of forward currency contracts are disclosed within current other financial assets and \$nil (2015: \$0.2 million) as 4 non-current other financial assets. \$5.3 million (2015: \$0.6 million) of forward current contract liabilities are disclosed within current other financial liabilities.

The impact of hedged items designated in hedging relationships as of 31 March 2016 on the statement of financial position of the CSR group is as follows:

	Commodity price risk Aluminium commodity swaps (forecast sales)		Foreign exchange risk				
			Forward curre (forecas		Forward currency contracts (forecast purchases)		
\$million	2016	2015	2016	2015	2016	2015	
Changes in value of hedged item used for calculating hedge ineffectiveness – gain (loss)	(25.6)	(37.3)	2.0	36.0	4.4	(1.3)	
Cash flow hedge reserve (continuing hedges) – gain (loss)	25.3	37.2	(2.0)	(35.8)	(4.4)	1.3	

The below hedging relationships affected profit or loss and other comprehensive income as follows:

	Commodit	y price risk	Foreign exchange risk				
	Aluminium commodity swaps (forecast sales)		Forward currency contracts (forecast sales)		Forward currency contracts (forecast purchases)		
\$million	2016	2015	2016	2015	2016	2015	
Hedge gain (loss) recognised in other comprehensive income ¹	14.0	36.7	8.0	(35.9)	(4.6)	1.2	
Gain (loss) reclassified from other comprehensive income to profit or loss before tax ²	25.7	5.7	(25.9)	4.9	1.1	(0.1)	
Line item in statement of comprehensive income	Trading revenue	Trading revenue	Trading revenue	Trading revenue	Cost of sales	Cost of sales	

No hedge ineffectiveness was recognised in profit or loss during the year.

The hedge gain (loss) recognised in other comprehensive income totalling \$17.4 million gain (2015: \$2.0 million gain) together with the \$3.3 million loss (2015: \$nil) on 1 oil swaps controlling interests of \$6.5 million gain (2015: \$nil) recordies to the hedge gain (loss) transferred to equity in Note 17. The gain (loss) reclassified from other comprehensive income to profit or loss after tax totalling \$0.9 million gain (2015: \$10.5 million gain) less non-controlling interests

2 of \$nil (2015: \$3.0 million gain) reconciles to the hedge gain (loss) transferred to statement of financial performance in Note 17.

1 From 1 May 2015, CSR group's ownership in Boral CSR Bricks Pty Limited is 60% representing CSR's respective contribution of assets and liabilities into the new operating entity. See note 8 for further detail.

2 In members voluntary liquidation.

3 Deregistered during the year ended 31 March 2016.

4 These subsidiaries have been granted relief from the necessity to prepare financial reports in accordance with Class Order 98/1418 issued by ASIC. For further information refer note 20.

20 Deed of cross guarantee

CSR Limited, Bricks Australia Services Pty Ltd, CSR Building Products Ltd, CSR Finance Ltd, CSR Investments Pty Ltd, CSR Structural Systems Pty Limited, CSR Viridian Finance Pty Ltd, CSR Viridian Holdings Limited, CSR Viridian Limited and Rivarol Pty Limited are parties to a deed of cross guarantee under which each company guarantees the debts of the others. By entering into the deed, the wholly owned entities have been relieved from the requirement to prepare a financial report and directors' report under Class Order 98/1418 (as amended) issued by the ASIC.

The above companies represent a 'closed group' for the purposes of the Class Order, and as there are no other parties to the deed of cross guarantee that are controlled by CSR Limited, they also represent the 'extended closed group'.

Set out below is a consolidated statement of financial performance, a consolidated statement of comprehensive income, a consolidated statement of financial position and a summary of movements in consolidated retained profits for the years ended 31 March 2016 and 31 March 2015 of the closed group.

21 Non-controlling interests

Set out below is summarised financial information for each subsidiary that has non-controlling interests that are material to the CSR group. The amounts disclosed are before intercompany eliminations.

	Boral CSR Bricks Pty Limited				
\$million	2016	2015	2016	2015	
Statement of financial position					
Current assets	114.6	-	137.9	155.3	
Non-current assets	142.6	-	150.7	184.1	
Current liabilities	64.8	-	74.6	109.1	
Non-current liabilities	5.7	-	32.5	41.6	
Statement of financial performance					
Revenue	263.0	-	530.7	532.7	
Profit after tax for the year	12.0	-	72.3	70.3	
Other comprehensive income (expense) for the year	-	-	15.5	(6.8)	
Total comprehensive income for the year	12.0	-	87.8	63.5	
Statement of cash flows					
Cash flows from operating activities	42.6	-	80.5	110.9	
Cash flows from investing activities	(10.7)	-	(7.8)	(6.6)	
Cash flows from financing activities	(27.5)	-	(95.0)	(93.2)	
Net increase (decrease) in cash held	4.4	-	(22.3)	11.1	
Transactions with non-controlling interests					
Profit allocated to non-controlling interests ¹	4.8	-	21.7	21.2	
Dividends paid to non-controlling interests	-	-	28.5	14.1	

1 Profit allocated to non-controlling interests for subsidiaries that are not material for disclosure was \$0.5 million for the year ended 31 March 2016 (2015: nil).

22 Interest in joint operations

The CSR group's interest in the Tomago aluminium smelter joint operation of 36.05% (2015: 36.05%) is held through a controlled entity in which the CSR group has a 70% interest, resulting in an effective interest in the joint operation of 25.24% (2015: 25.24%).

Recognition and measurement

The shareholders of the joint operation are jointly and severally liable for the liabilities incurred by the operation and have rights to the assets. This entity is therefore classified as a joint operation and the group recognises its direct right to the jointly held assets, liabilities, revenues and expenses. Where the CSR group and the parties to the agreements only have rights to the net assets of each of the operations under the arrangements, these entities will be classified as joint ventures of the CSR group and accounted for using the equity method. Refer to note 23.

Critical accounting estimate

Investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement, and therefore requires judgment in determining the classification. The CSR group has both joint operations and joint ventures.

23 Equity accounting information

Carrying amount (\$million)		2016			2015	
Entity ¹	Long term Ioan	Equity accounted investment	Net investment	Long term Ioan	Equity accounted investment	Net investment

CSR group's interest in Viridian Glass New Zealand is 58% (2015: 58%). CSR group's interest in all other entities is 50% (2015: 50%)

1 2 3 These entities are limited partnerships in New Zealand.

Entities incorporated in Australia.

Recognition and measurement

Investments in joint venture and associate entities have been accounted for under the equity method in the CSR group financial statements. CSR's share of net profit/loss of joint venture entities is recorded in the statement of financial performance.

Purchase and sales of goods and services to joint venture entities are on normal terms and conditions.

Critical accounting estimate - non consolidation of entities in which the CSR group holds more than 50%

The directors have determined that they do not control Viridian Glass Limited Partnership even though the CSR group owns 58% of the interest of this entity. It is not a controlled entity of CSR Limited because the decisions over the relevant activities of the entity require unanimous consent between the two partners.

i) Net investment in joint ventures

\$million	2016	2015
Opening net investment	63.3	59.8
Share of net profit before income tax	18.8	16.1
Share of income tax	(5.6)	(4.4)

1 Included within current liabilities are the current portion of the product liability provision and uninsured losses and future claims provision of \$26.0 million and \$5.5 million respectively (2015: \$28.0 million and \$5.7 million respectively). Included within non-current liabilities are the non-current portion of the product liability provision and uninsured losses and future claims provision of \$308.5 million and \$23.1 million respectively (2015: \$322.7 million and \$23.5 million respectively). See notes 12 and 13 for further details.

ii) CSR Limited transactions with controlled entities

During the financial years ended 31 March 2016 and 2015, CSR Limited advanced and repaid loans, sold and purchased goods and services, and provided accounting and administrative assistance to its controlled entities. All loans advanced to and payable to these related parties are unsecured and subordinate to other liabilities. Loans between members of the Australian tax consolidation group are not on normal terms and conditions.

iii) Contingent liabilities

\$million	2016	2015
Contingent liabilities, capable of estimation, arise in respect of the following categories:		
Performance guarantees provided to third parties	65.1	61.2
Bank guarantees to Harwood Superannuation Fund ¹	6.4	1.4
Total contingent liabilities ²	71.5	62.6

1 CSR Limited has an obligation to contribute amounts so as to ensure that the assets attributable to certain superannuation defined benefit plans are not less than 120% of the amount required to meet the actuarial liabilities. Refer to note 25 for details of superannuation commitments as at 31 March 2016.

2 CSR Limited has not directly provided any financial guarantees to third parties outside of the CSR group. All financial guarantees disclosed above are related to bank guarantees provided to third parties to guarantee CSR Limited's performance of its liabilities. In addition, CSR Limited has undertaken to provide financial support, as and when required, to certain wholly owned controlled entities so as to enable those entities to pay their debts as and when such debts become due and payable.

iv) Capital commitments

CSR Limited has committed \$nil to the acquisition of any property, plant and equipment as at 31 March 2016 (2015: \$nil).

Other

25 Employee benefits

i) Superannuation commitments

During the year, the CSR group participated in a number of superannuation funds (funds) in Australia and New Zealand. The funds provide benefits either on a cash accumulation or defined benefit basis, for employees (and spouses) on retirement, resignation or disablement, or to their dependants on death. Employer contributions are legally enforceable, with the right to terminate, reduce or suspend those contributions upon giving written notice to the trustees. CSR Limited and its Australian controlled entities are required to provide a minimum level of superannuation support for employees under the Australian superannuation guarantee legislation.

Australian superannuation funds

In Australia, the CSR group participates in the Harwood Superannuation Fund and the Pilkington (Australia) Superannuation Scheme for those employees and pensioners who are currently members of these funds and any new employees who become members.

Retirement funds

The contributions to the funds for the year ended 31 March 2016 for the CSR group were \$34.2 million (2015: \$33.3 million).

Accumulation funds

The benefits provided by accumulation funds are based on the contributions and income thereon held by the funds on behalf of the members. Contributions are made as agreed between the member and the company and for the financial year ended 31 March 2016, contributions totalled \$31.5 million (2015: \$29.1 million). These contributions are expensed in the year they are incurred. CSR group's legal or constructive obligation is limited to these contributions.

Defined benefit funds

The benefits provided by defined benefit divisions of funds (DBDs) are based on length of service or membership and salary of the member at or near retirement. Member contributions, based on a percentage of salary, are specified by the rules of the fund. Employer contributions generally vary based on actuarial advice and may be reduced or cease when a fund is in actuarial surplus. DBDs are closed to new members.

Changes to defined benefit obligations

The Harwood Superannuation Fund Trust Deed was amended with effect from midnight on 31 December 2011 to restructure the various plans within the fund, including splitting the CSR Plan Division One (defined benefit) into three separate plans. The amendment reflected the agreement between CSR Limited and Wilmar International Limited that Sucrogen Limited would assume full responsibility to fund its obligations for defined benefit members employed by the Sucrogen business as well as its share of the funding obligation in respect of the Harwood Pensioner DBD Plan. As such, amounts recorded for the CSR group exclude funding obligations and share of assets and liabilities which have been assumed by Wilmar Sugar Australia Limited.

Asset backing

The assets of the funds at 31 March 2016 were insufficient to satisfy all benefits which would have been vested in the event of termination of the funds, or in the event of the voluntary or compulsory termination of the employment of each employee. The funds have obligations in excess of the fair value of assets as at 31 March 2016. The CSR group's obligation in respect of the shortfall in asset value is \$9.0 million (2015: \$28.5 million). CSR contributions to the funds are outlined in the table below.

The last actuarial assessment for the Harwood Superannuation Fund and the Pilkington (Australia) Superannuation Scheme was completed as at 30 June 2015. The funding requirements were reviewed as at 30 June 2015. A combination of the attained age normal and projected unit credit funding methods were used to determine the contribution rates for the Harwood Superannuation Fund. The projected unit credit funding method was used for the Pilkington (Australia) Superannuation Scheme.

Table 1: Defined benefit plans (DBDs) sponsored by the CSR group

\$million	CSR contributions to the funds	Present value of fund assets	Present value of fund liability	Net defined benefit obligation	Contributions paid
Harwood Superannuation Fund					
DBD CSR and DBD Harwood Pensioner ^{1,2}	\$nil from 1 April 2016	72.4	(82.0)	(9.6)	0.1
DBD Monier PGH	\$nil from 1 April 2016	45.5	(41.2)	4.3	0.9
Pilkington (Australia) Superannuation Scheme					
DBD ³	14.6% of eligible salary	49.2	(52.9)	(3.7)	1.7

1 Actuarial liabilities are determined to be past service liabilities based on membership accrued up to 31 March 2016.

2 There is an obligation for plan employers to contribute such amounts so as to ensure that the assets are not less than 120% of the amount required to meet the actuarial liabilities of Division One of the Harwood Superannuation Fund which includes DBD CSR and DBD Harwood Pensioner. At the time of the last actuarial review, DBD CSR had a funding position of 146% and DBD Harwood Pensioner had a funding position of 111%. Therefore, CSR Limited made available to the trustee of the fund bank guarantees to satisfy the balance of its commitment to 120%. As at 31 March 2016, CSR Limited has provided bank guarantees of \$6.4 million to the Trustee of the fund (2015: \$1.4 million). The bank guarantees have been disclosed in note 24.

3 Funds contributed by CSR are for accumulation members.

Key assumptions used by actuaries

Key assumptions and parameters used by the actuaries (expressed as weighted averages) are outlined below:

%		2016	2015
Discount rate (after tax)		3.6	2.3
Expected salary increase		3.3	3.4
Asset class allocation	 Equity instruments 	44.2	47.9
	 Debt instruments 	39.5	37.1
	- Property	4.4	4.5
	– Other	11.9	10.5

Impact of plans on the statement of financial performance and comprehensive income

\$million	2016	2015
Amounts recognised in the statement of financial performance1		
Current service cost	3.4	3.5
Finance cost	5.1	7.0
Interest income	(4.4)	(6.5)
Total expense included in the statement of financial performance	4.1	4.0
Actuarial gain (loss) incurred during the financial year and recognised in the statement of comprehensive income	20.9	(15.4)
Cumulative actuarial losses recognised in the statement of comprehensive income		(94.4)

1 Disclosed in selling, administration and other operating costs.

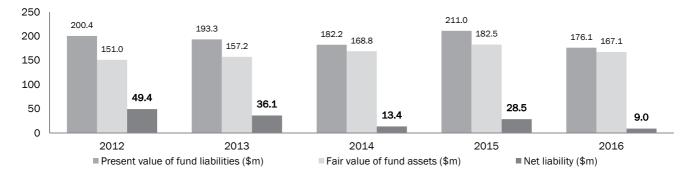

Impact of plans on the statement of financial position

\$million	2016	2015
Net liability of superannuation defined benefit plans		
Present value of liabilities	176.1	211.0
Fair value of assets	(167.1)	(182.5)
Net liability	9.0	28.5
Included in the statement of financial position		
Non-current other assets (note 29)	(4.3)	(6.7)
Other non-current liabilities	13.3	35.2
Net liability	9.0	28.5
Movements in the present value of the defined benefit plan liabilities		
Liabilities at the beginning of the financial year	211.0	182.2
Current service cost	3.4	3.5
Finance cost	5.1	7.0
Contributions from participants	1.0	0.7
Actuarial (gain) loss	(28.1)	30.3
Benefits paid	(16.3)	(12.7)
Liabilities at the end of the financial year	176.1	211.0
Movements in the fair value of the defined benefit plan assets		
Assets at the beginning of the financial year	182.5	168.8
Interest income	4.4	6.5
Return on assets (in excess of interest income)	(7.2)	14.9
Contributions from the employer	2.7	4.3
Contributions from participants	1.0	0.7
Benefits paid	(16.3)	(12.7)
Assets at the end of the financial year	167.1	182.5

25 Employee benefits (continued)

i) Superannuation commitments (continued)

Recognition and measurement

For superannuation defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each reporting date. Actuarial gains and losses are recognised in full, directly in retained profits, in the year in which they occur, and are presented in the statement of comprehensive income. Past service cost is recognised immediately to the extent that the benefits are already vested, and otherwise is amortised on a straight-line basis over the average period until the benefits become vested.

The defined benefit obligation recognised in the statement of financial position represents the present value of the defined benefit obligation, adjusted for unrecognised past service cost, net of the fair value of the plan assets. Any asset resulting from this calculation is limited to past service costs, plus the present value of available refunds and reductions in future contributions to the plan.

ii) Share-based payments

Long term incentive (LTI) plan - Performance rights plan (PRP)

Under the LTI plan effective during the year ended 31 March 2016, eligible executives were invited to receive performance rights in the company. There are two equally weighted (50%) performance hurdles, CSR group's TSR and EPS. Shares acquired on vesting of performance rights are fully paid ordinary shares and the amount payable to acquire these shares is \$nil.

A summary of the performance rights granted under the plan is set out below:

Number of performance rights	2016	2015
Opening balance	6,081,313	6,507,267
Granted during the year	1,053,185	1,036,004
Vested during the year	(2,396,680)	(1,087,676)
Lapsed during the year	(1,010,590)	(374,282)
Closing balance	3,727,228	6,081,313

There were no vested and exercisable shares at 31 March 2016 (2015: nil).

Performance rights outstanding at the end of the year have the following expiry dates:

	Performance rights			
Grant date	Expiry date	2016	2015	
24 July 2010	24 July 2015	-	240,841	
23 July 2011	23 July 2015	-	638,973	
23 July 2012	23 July 2016	-	2,527,456	
23 July 2013	23 July 2017	1,638,039	1,638,039	
23 July 2014	23 July 2018	1,076,383	1,036,004	
24 July 2015	1 April 2018	1,012,806	-	
Total		3,727,228	6,081,313	

A summary of key valuation assumptions for rights granted in the year ended 31 March 2016 is set out below:

Grant date	24 July 2015	24 July 2015
Vesting condition	TSR	EPS
0		
Valuation method	Monte-Carlo simulation	Binominal Tree
Start of performance period	1 April 2015	1 April 2015
Testing date	31 March 2018	31 March 2018
Expected life	2.7 years	2.7 years
Grant date share price	\$3.56	\$3.56
Volatility	30%	30%
Dividend yield	5.8%	5.8%
Risk-free rate	1.87%	1.87%
Fair value	\$1.69	\$3.05

25 Employee benefits (continued)

ii) Share-based payments (continued)

Deferred shares

Under the STI deferral plan, 20% of any STI earned by senior executives is delivered in CSR shares. These shares must be held in trust subject to trading restrictions and have a continued service requirement for a minimum of two years from the date of allocation.

Deferred shares are administered by the CSR Share Plan Trust. The shares are acquired on market at the grant date and are held as treasury shares until such time as they are vested. Forfeited shares are reallocated in subsequent grants. The number of shares to be granted is determined based on the weighted average price at which the company's shares are traded on the Australian Stock Exchange.

	2016	2015
Number of rights to deferred shares granted	216,342	188,504
Fair value of rights at grant date	\$3.79	\$3.37

Other plans

Universal Share Option Plan (USOP): eligible employees can buy shares to a maximum value of \$1,000 and receive an equivalent number of shares for no cash consideration. The shares are acquired on market by the employee share trust prior to issue with the cost of acquisition recognised in employee benefit expense.

Employee Share Acquisition Plan (ESAP): directors and employees can forego up to \$5,000 of their cash remuneration annually to acquire shares in the company. The shares are purchased on market by the CSR Share Plan trustee, who acts on instructions given in accordance with the plan rules and the company's Share Trading Policy.

Number of shares issued under the plans	2016	2015
USOP1	520,428	436,668
ESAP	98,745	77,470

1 Number of shares issued includes the number of purchased shares issued to employees under the plan. Each participant was issued with shares worth \$1,000 based on the weighted average market price of \$3.77 (2015: \$3.77).

Expenses arising from share-based payment transactions

\$million	2016	2015
Long term incentive plan (PRP)	2,669,725	2,372,710
Deferred shares	465,719	516,989
Other plans	984,374	822,246
Total expense	4,119,818	3,711,945

Recognition and measurement

Share-based payments can either be equity settled or cash settled.

- Equity settled: the fair value determined at the grant date of the equity-settled share based payments is expensed on a straight-line basis over the vesting period (with a corresponding increase to the employee share reserve), based on the CSR group's estimate of shares that will eventually vest.
- Cash settled: the ultimate expense recognised in relation to cash-settled transactions will be equal to the actual cash paid to the
 employees, which will be the fair value at settlement date. The expected cash payment is estimated at each reporting date and a liability
 recognised to the extent that the vesting period has expired and in proportion to the amount of the awards that are expected to
 ultimately vest.

26 Related party disclosures

i) Transactions with directors or other key management personnel

Transactions entered into during the financial year with directors of CSR Limited and other key management personnel of the CSR group and with their closely related entities which are within normal customer or employee relationships on terms and conditions no more favourable than those available to other customers, employees or shareholders included:

- contracts of employment (see section ii) and reimbursement of expenses;
- acquisition of shares in CSR Limited under the employee share plans and the dividend reinvestment plan; dividends from shares in CSR Limited; and
- sale and purchase of goods and services.

No new loans, loan repayments or loan balances occurred between the CSR group and directors and other key management personnel of the CSR group during the financial year ended 31 March 2016 (2015: nil).

ii) Key management personnel remuneration

Total remuneration paid or payable to directors and key management personnel is set out below:

\$	2016	2015
Short term employee benefits	4,245,073	4,314,435
Share based payments expense	1,275,508	1,141,662
Total	5,520,581	5,456,097

iii) Other related parties

Other than transactions with joint venture entities disclosed in note 23, no material amounts were receivable from, or payable to, other related parties as at 31 March 2016 (2015: nil), and no material transactions with other related parties occurred during those years.

Details of payments to superannuation defined benefit plans are shown in note 25.

27 Subsequent events

With the exception of the items disclosed below, there has not arisen in the interval between 31 March 2016 and the date of this report, any other matter or circumstance that has significantly affected or may significantly affect the operations of the CSR group, the results of those operations or the state of affairs of the CSR group in subsequent financial years.

Dividends

For dividends resolved to be paid after 31 March 2016, refer to note 16.

28 Commitments and contingencies

i) Commitments

\$million	2016	2015
Operating lease and hire expenditure		
Land and buildings	159.4	161.8
Plant and equipment	19.9	17.1
Total	179.3	178.9
Contracted lease and hire expenditure comprises:		
Within one year	44.0	41.5
Between one and five year(s)	91.2	95.3
After five years	44.1	42.1
Total	179.3	178.9
Contracted capital expenditure comprises:		
Payable within one year	7.7	12.1

The total of minimum rentals to be received in the future under non-cancellable sub-leases as at 31 March 2016 is not material. Contingent rentals for 2016 and 2015 financial years were not material. The leases on most of the CSR group's rental premises contain renewal options. The CSR group's decision to exercise renewal options is primarily dependent upon the profitability of business conducted at the location.

Recognition and measurement - operating leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the CSR group as lessee are classified as operating leases.

ii) Contingencies

Contingencies for CSR Limited are outlined in the parent entity note 24. There are no other contingencies in relation to controlled entities within the CSR group. Operating lease expenditure for 2016 and 2015 is disclosed in note 5.

29 Other non-current assets

\$million	Note	2016	2015
Loans to joint venture entities1		37.2	38.4

Total other non-current assets		17.0	20.2

1 The CSR group has provided facilities to joint venture entities on arm's length terms.

2 No fixed repayment term.

30 Auditor's remuneration

\$	2016	2015
Deloitte Touche Tohmatsu in Australia		
Audit or review of financial statements	715,000	640,000
Sustainability and carbon related assurance services	52,500	86,142
Other	10,000	20,000
Total auditor's remuneration	777,500	746,142

31 Other accounting policies

Cash and cash equivalents: Net cash is defined as cash at banks and on hand and cash equivalents, net of bank overdrafts. Cash equivalents include highly liquid investments which are readily convertible to cash, and loans which are not subject to a term facility. Cash and cash equivalents held at 31 March 2016 included \$35.6 million of cash at bank and on hand (2015: \$11.0 million) and \$37.5 million of short term deposits (2015: \$57.4 million).

Tax consolidation: Australian Tax Legislation allows groups, comprising a parent entity and its Australian resident wholly owned entities, to elect to consolidate and be treated as a single entity for income tax purposes.

The CSR group has elected for those entities within the CSR group that are wholly owned Australian resident entities to be taxed as a single entity from 1 April 2004.

Prior to the adoption of the tax consolidation system, CSR Limited, as the head entity in the tax consolidated group, agreed to compensate or be compensated by its wholly owned controlled entities for the balance of their current tax liability/(asset) and any tax loss related deferred tax asset assumed by CSR Limited. Due to the existence of a tax funding arrangement between the entities in the tax consolidated group, amounts are recognised as payable to or receivable by CSR Limited and each member of the group in relation to the tax contribution amounts paid or payable between CSR Limited and the other members of the tax consolidated group in accordance with the arrangement.

Foreign currency: All foreign currency transactions during the financial year have been brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at that date. Exchange differences are brought to account in profit or loss in the year in which they arise except if designated as cash flow hedges.

On consolidation, the results and financial position of foreign operations are translated as follows:

- assets and liabilities are translated using exchange rates prevailing at the end of the reporting period;
- income and expense items are translated at the average exchange rates for the period; and
- exchange differences arising, if any, are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the operation.

Put option liabilities on non-controlling interests: Contracts that contain an obligation to pay cash in the future to purchase minority shares held by non-controlling interests, even if the payment is conditional on the option being exercised by the holder, are recorded as a financial liability. The initial redemption liability is recorded against equity. The financial liability is recognised at the present value of the expected redemption amount. Any adjustments to the liability are recorded through equity.

Goods and services tax: Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from or payable to the taxation authority is included as a current asset or liability.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from or payable to the taxation authority are classified as operating cash flows.

New standards not yet applicable:

- AASB 16 Leases (AASB 16): Released on 23 February 2016 and will primarily affect the accounting treatment of leases by lessees and will result in the recognition of almost all leases on the balance sheet. The standard removes the current distinction between operating and financing leases and requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for almost all lease contracts. The standard will be first applicable for the year commencing 1 April 2019 and the group is currently in the process of quantifying the expected impact. The impact of this standard is expected to be material to the CSR group. However, until the group undertakes a detailed review, it is not practicable to provide a reasonable estimate of the effect of this standard.
- AASB 15 Revenue from contracts with customers (AASB 15): Issued in December 2014 and is expected to be first applicable to CSR Limited no earlier than the year commencing 1 April 2018, with amended comparatives. AASB 15 will replace AASB 118 Revenue, which covers contracts for goods and services, and AASB 111 Construction Contracts, which covers construction contracts. The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer, that is, the "notion of control" replaces the existing "notion of risks and rewards". The impact of this standard is not expected to be material to the CSR group.
- AASB 9 Financial instruments (AASB 9): The CSR group has adopted AASB 9 as issued in December 2013, which resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements. The CSR group has adopted the two main phases relating to classification and measurement of financial assets and financial liabilities (Phase 1) and hedge accounting (Phase 3). The update to AASB 9 Financial Instruments as issued in December 2013 which includes impairment (Phase 2) has not yet been adopted by the CSR group. Phase 2 of this standard is not expected to have a material impact on the CSR group and is first applicable for the year commencing 1 April 2018.

Directors' declaration in relation to financial statements and audit

Deloitte has audited the financial statements contained within the CSR group 2016 Annual Financial Report and has issued an unqualified audit report. This year end results announcement has not been subject to audit. The preceding financial information contained in the Financial Report includes financial information extracted from the audited financial statements. A copy of the audit report will be available with the CSR group 2016 Annual Financial Report when it is released on 25 May 2016 and has not been included within the Financial Report as it does not include all of the information otherwise presented in the Annual Financial Report.

. A

Rob Sindel Managing Director

Sydney, 11 May 2016
