DEAR SHAREHOLDER

CSR'S ANNUAL GENERAL MEETING (AGM) WILL BE HELD AT THE NORTHSIDE CONFERENCE CENTRE, CORNER OXLEY STREET AND POLE LANE, CROWS NEST NSW AT 11.00AM ON FRIDAY 23 JUNE 2017.

Following the same format we have adopted for the last two years, after the managing director, Rob Sindel, and I present our yearly reviews of CSR's financial position, operations, prospects and growth strategy, we will show a video presentation. We will then give shareholders an opportunity to engage directly with the board and senior management before moving onto the formal business of the meeting.

The notice of meeting (which includes the following agenda, eligibility to vote and explanatory notes) details the formal business to be dealt with at the AGM. Briefly, this will be to:

- receive and consider the formal reports for the financial year;
- elect directors – to elect Christine Holman and to re-elect Mike Ihlein as non-executive directors of the company;
- adopt the remuneration report; and
- approve the grant of long term incentives to the managing director.

The directors recommend that shareholders vote in favour of all resolutions.

As in recent years, we invite shareholders to submit questions in advance of the meeting on the form attached to the notice of meeting.

If you choose to attend the meeting, please bring the enclosed proxy form with you to assist with your registration for entry to the AGM.

If you do not plan to be at the meeting, you are encouraged to appoint someone to attend and vote on your behalf as your proxy. Instructions on how to appoint a proxy are on the back of the enclosed proxy form.

Proxy forms must be received by 11.00am (Sydney time) on Wednesday 21 June 2017 to be valid for the meeting. Your proxy may be appointed in a variety of ways described on page 3 of the notice of meeting under 'Proxies'.

The AGM will be webcast live on CSR's website, <http://www.csr.com.au/investor-relations-and-news/webcasts>. Also available on our website is:

AGENDA (CONTINUED)

3. Remuneration report

Listed companies, such as CSR, are required to provide detailed disclosures of director and senior executive remuneration in their directors' reports. These disclosures are set out in the remuneration report (which forms part of the directors' report) on pages 23 to 40 of the CSR Annual Report 2017.

The board strives to ensure that CSR's remuneration framework aligns with shareholder interest by:

- ensuring remuneration is performance driven with a focus on setting challenging targets for both financial and non-financial measures;
- placing substantial emphasis on variable (incentive based) remuneration linked to short and long term performance benchmarks that support CSR's business strategy and future success; and
- implementing share based remuneration on a short and long-term basis.

The remuneration report includes:

- discussion of the board's policy in relation to the nature and level of remuneration of the KMP of CSR;
- discussion of the relationship between the board's remuneration policy and CSR's performance over the five financial years up to and including the year ended 31 March 2017;
- information about performance hurdles applicable to the short term and long term incentive components of the remuneration of KMP; and
- details of the remuneration provided to the non-executive directors, managing director and chief financial officer for the year ended 31 March 2017.

There will be a reasonable opportunity for shareholders at the meeting to comment on, and ask questions about, the remuneration report.

The vote on resolution 3 is advisory only and will not bind the directors or the company. However, the board will take the outcome of the vote into consideration when reviewing the company's remuneration practices and policies.

For the voting exclusions applicable to resolution 3, please refer to page 4 of this notice of meeting.

Recommendation

The directors unanimously recommend that shareholders vote in favour of resolution 3.

4. To approve the grant of Performance Rights to the managing director

The board recognises that it is desirable for the managing director and other senior executives to be incentivised and remunerated on a consistent basis and in a manner that focuses their efforts on delivering long-term value for shareholders. The board has developed the performance rights plan ('PRP') to ensure this alignment.

Pursuant to ASX Listing Rule 10.14, the acquisition of securities by a director under an employee incentive scheme requires shareholder approval. Consistent with CSR's past practice and in accordance with the terms of the YEM18 PRP, shares will be sourced on-market to satisfy grants of performance rights under CSR's performance rights plan. Grants of rights that are satisfied by on-market purchases of shares pursuant to the terms of their scheme are excluded from the operation of ASX Listing Rule 10.14 and do not require shareholder approval. However, as in the past, CSR is seeking shareholder approval in the interests of transparency and good corporate governance.

Accordingly, approval is now sought for Rob Sindel to be granted 339,466 performance rights under the CSR performance rights plan as his YEM18 long term incentive award. These performance rights are subject to the satisfaction of the performance and service vesting conditions below. Should the performance and service conditions be met then fully paid ordinary shares in CSR will be allocated to Rob Sindel in respect of those performance rights that vest. The grant of performance rights will be at no cost to Rob Sindel with no amount payable by Rob Sindel on the vesting of the performance rights.

Details of the PRP are contained in the remuneration report. The key terms of the performance rights to be granted to Rob Sindel for YEM18 are set out below.

Background to the YEM18 PRP

The board continually reviews the design of the remuneration framework to ensure it is 'fit for purpose'. This means the remuneration framework supports the overall business strategy, is aligned with shareholder interests, is competitive, reflects market practice and is simple for both participants and shareholders to understand.

In reviewing the PRP, the board's main focus is to ensure that management is incentivised to create sustainable long-term growth in shareholder returns.

AGENDA (CONTINUED)

There have been some substantial changes to the PRP in recent years. Specifically, in YEM16 the use of re-tests was removed from the PRP and performance against the hurdles in the plan is now assessed over a single three year period. In addition, from YEM16 onwards, the performance periods are aligned to an end date of 31 March.

In YEM17 there were two important changes introduced:

- (i) Earnings per Share (EPS) had been a common performance measure in the PRP and had been weighted as the most significant measure. In the YEM17 PRP, EPS is measured on an averaged basis over the three year performance period rather than point to point. The board believes this better addresses the cyclical nature of the business and incentivises participants to improve performance year on year by removing the current exposure to the final year of the performance period. The EPS performance hurdles were set at 5% to 10% compound growth for target and stretch performance respectively.
- (ii) a third measure (strategic objectives) was introduced to the PRP to recognise the performance of management in investing or building new income streams that will enhance CSR's competitive advantages in its key market segments. This also allowed for further streamlining of CSR's portfolio of businesses to increase exposure to core building material products and services and away from non-core activities.

At the time strategic objectives were introduced to the PRP, the board determined that, as the objectives are delivered over many years, it may not be appropriate to have strategic objectives in every plan.

Components of YEM18 PRP

The board proposes not to have strategic objectives in the YEM18 PRP and to revert back to using relative TSR and EPS as the two performance measures. The board has also determined that EPS is also best measured as an average over the three years and with the same performance hurdles as used in YEM17.

The changes to weightings as a percentage of the overall grant are summarised as follows:

Performance Hurdle	YEM16	YEM17	YEM18
Relative TSR	50%	30%	50%
EPS	50%	40%	50%
Strategic objectives	0%	30%	0%

Each component is described in more detail below.

1. Total Shareholder Return (TSR)

50% of Rob Sindel's performance rights ('Tranche A') will be subject to a performance condition based on the relative performance of CSR's TSR over the performance period.

TSR is the percentage growth in shareholder value, which measures the changes in share price, taking into account dividends and capital returns. The TSR performance condition measures CSR's ability to deliver superior shareholder returns relative to its peer companies by ranking the TSR performance of CSR against the TSR performance of companies in a comparator group.

The comparator group comprises the constituents of the S&P/ASX 200 Index, defined at the start of the performance period ('Peer Group'). The board uses the ASX200 as the comparator group given that CSR sits within this index. The board has the discretion to adjust the Peer Group to take into account events including, but not limited to, takeovers, mergers, de-mergers and similar transactions that might occur over the performance period.

The proportion of the Tranche A performance rights that vest will be determined based on the ranking of CSR's TSR, relative to the TSR of each of the companies in a comparator group over the performance period, as set out in the vesting schedule below:

TSR of CSR relative to the Peer Group	Proportion of Tranche A to vest
Below the 50 th percentile	0%
At the 50 th percentile	50%
Between the 50 th percentile and the 75 th percentile	Straight-line vesting between 50% and 100% (eg: each percentile improvement will result in an additional 2% vesting)
75 th percentile or greater	100%

AGENDA (CONTINUED)

2. Earnings per share (EPS)

50% of Rob Sindel's performance rights ('Tranche B') will be subject to an EPS hurdle, which measures CSR's annual compound EPS growth over the performance period. The EPS hurdle assesses the success of the business in generating continued growth in earnings and is strongly aligned with shareholder interests.

EPS is defined as net profit after tax per share pre significant items. The board may adjust EPS to exclude the effects of material business acquisitions or divestments and for certain one-off costs.

As was the case in YEM17, EPS will be measured on an averaged basis over the three year performance period rather than point to point. The board believes this addresses the cyclicity of the business and incentivises participants to improve performance year on year by removing the current exposure to the final year of the performance period.

Under this approach, the board will assess average EPS over the three year performance period and this result will then be compared against the hurdles set by the board.

Based on CSR's analysis of the broader global growth outlook, comparable hurdles set by CSR's competitors and CSR's cost of capital, the EPS performance hurdles will be set at 5% to 10% compound growth for target and stretch performance respectively. This is the same as the hurdles that were applied in the YEM17 PRP.

Target performance is calculated by taking the total EPS from the performance period using actual YEM17 EPS of 36.5cps compounding 5% per annum for three years (which equates to a total of 120.8 cents), and dividing the result by three.

Stretch performance is calculated by taking the total EPS from the performance period using actual YEM17 EPS of 36.5cps compounding 10% per annum for three years (which equates to a total of 132.9 cents), and dividing the result by three.

This is illustrated below:

EPS Performance Hurdle	Average EPS growth (% CAGR)*	YEM17 EPS (cps)	Cumulative EPS required over next three years (cps)	Average EPS required over next three years (cps)
Target	5.0%	36.5	120.8	40.3
Stretch	10.0%	36.5	132.9	44.3

* Compound annual growth rate

The proportion of the Tranche B performance rights that vest will be determined as follows:

Average EPS Target Range (compound growth per annum)	Proportion of Tranche B to vest
Below average 5% compound EPS	0%
Equal to average 5% compound EPS	50%
Between 5% and 10% average compound EPS	Straight-line vesting between 50% and 100%
Greater than average 10% compound EPS	100%

AGENDA (CONTINUED)

Number of performance rights to be granted to Mr Sindel

It is proposed that 339,466 performance rights be granted to Rob Sindel. This quantum has been determined through an analysis of Rob Sindel's total target remuneration referenced against external market benchmarks. Specifically, in accordance with his employment contract, a grant to the maximum value of 120% of total fixed remuneration is proposed for Rob Sindel's YEM18 PRP grant. The share price used to calculate the number of performance rights allocated to Rob Sindel was the 10 day Volume Weighted Average Price of CSR shares leading in to the performance period, being the ten days up to and including 31 March 2017, which was \$4.4367.

Performance conditions and vesting period

Following testing of the performance conditions at the end of the performance period (described below) and, to the extent to which the service and performance conditions are satisfied, the performance rights will vest and CSR will procure the transfer to Rob Sindel of one CSR share for each performance right that vests, for no further consideration.

Performance period

The performance of each Tranche against the applicable performance hurdle will be measured over the three year performance period from 1 April 2017 to 31 March 2020.

To the extent any performance rights under Tranche A or Tranche B remain unvested at the end of the performance period, those performance rights will lapse.

Rights attaching to performance rights

Performance rights carry no voting or dividend entitlements.

The PRP rules contain provisions in relation to the adjustment of performance rights in certain circumstances, including in the event of a capital reorganisation (such as a subdivision or consolidation), a capital return or a bonus issue of shares to members.

Change of control

The board has discretion to allow all or a part of unvested performance rights to vest on a change of control of CSR (e.g. a takeover, merger, compromise or arrangement). In exercising this discretion, the board would generally not fully accelerate vesting but, rather, would look at pro-rata assessments for plans on foot. This is consistent with past discretion applied by the board in similar events.

Treatment of performance rights on cessation of employment

If Rob Sindel ceases to be employed prior to the performance conditions being met, generally this will result in Rob Sindel forfeiting his interest in the unvested performance rights under the PRP.

However, if Rob Sindel ceases employment as a result of retirement, redundancy, total or permanent disablement, death or such other circumstances as determined by the board at its discretion, some or all of the unvested performance rights may stay on foot and remain eligible for vesting in the usual course subject to the satisfaction of the applicable performance hurdles. In exercising this discretion, the board would not generally accelerate vesting and would apply pro-rata assessment for all plans on foot.

Shares allocated on vesting of performance rights

Shares allocated to Rob Sindel upon vesting of the performance rights will rank equally with other ordinary CSR shares on issue.

Prohibition of hedging arrangements

Consistent with the requirements under the *Corporations Act 2001* CSR prohibits participants in the PRP from entering into any arrangement to hedge or otherwise affect their economic exposure to their performance rights. It is the board's policy that participants will forfeit their interest in the performance rights if they enter into any hedging transaction.

Additional disclosure

The following information sets out additional disclosures:

- a) the maximum number of performance rights proposed to be awarded to Rob Sindel under this approval is 339,466;
- b) the price payable by Rob Sindel on the issue or vesting of each performance right is \$nil;
- c) since approval for performance rights under the PRP was last obtained (at the 2016 AGM), Rob Sindel (being the only director to participate in the PRP) received 448,760 performance rights as his PRP allocation for YEM17. The acquisition price for these performance rights was \$nil;
- d) there is no loan proposed in relation to the proposed award of performance rights to Rob Sindel; and
- e) the performance rights that are the subject of this approval will be granted to Rob Sindel on or around 17 July 2017 (and, in any event, prior to 31 December 2017).

AGENDA (CONTINUED)

For the voting exclusions applicable to resolution 4, please refer to page 4 of this notice of meeting.

Recommendation

The directors (excluding Rob Sindel) unanimously recommend that shareholders vote in favour of resolution 4.
